BATH WASHCLOTH “BATH BOOM” (MAX).

Washcloth made of polypropylene thread and foam rubber with handles (short bristles).

Sauna boom MAX - the jacquard of this washcloth is formed by short rigid loops resembling knots. They are located in longitudinal rows along the entire length of the washcloth. The space inside the stocking is filled over the entire area with a foam insert to create a lush soap suds. For ease of use, the washcloth has two sturdy handles. The “Bath Boom” hard jacquard is able to make a good peeling and anti-cellulite massage. However, when buying, you should pay attention to the stiffness sticker. The bath boom can be either sharp-toothed or gentle and massive. Various combinations of jacquard yarns make it possible to produce it in “Soft” hardness levels. Produced in a wide range of colors.

Colors:

size 15×4×10 cm. (+/- 5%)

BATH WASHCLOTH “TENDERNESS”

A sponge made of polypropylene thread and foam rubber with handles.

Washcloth of classic shape and size. It is a foaming foam insert covered and stitched with jacquard stockings. Has a loop for hanging and drying after use. Jacquard is formed by loops of various shapes and sizes, as well as combinations of threads allow to produce a product in all possible degrees of hardness “Soft”. High resistance to wear. Produced in a wide range of colors.

Colors:

size 15×4×10 cm. (+/- 5%)

BATH WASHCLOTH “BREEZE”

Washcloth made of polypropylene thread and foam with a loop (fluffy pile).

Breeze is a washcloth of classic shape and size. It is a foaming foam insert covered and stitched with jacquard stockings. Has a loop for hanging and drying after use. Jacquard is formed by loops of various shapes and sizes, as well as combinations of threads allow to produce a product in all possible degrees of hardness “Hard”, “Medium”. High resistance to wear. Produced in a wide range of colors.

Colors:

size 15×4×10 cm. (+/- 5%)

BATH WASHCLOTH “BREEZE BAND”

Washcloth made of polypropylene thread and foam with a loop (fluffy pile).

Breeze BAND is a washcloth of classic shape and size. It is a foaming foam insert covered and stitched with jacquard stockings. Has a loop for hanging and drying after use. Jacquard is formed by loops of various shapes and sizes, as well as combinations of threads allow to produce a product in all possible degrees of hardness “Medium”. High resistance to wear. Produced in a wide range of colors.

Colors:

size 20×2×18 cm. (+/- 5%)

BATH GLOVE “GLOVE” (BOOM)

Washcloth made of polypropylene thread and foam with a loop (short bristles).

Mitten - this washcloth is made in the shape of a mitten. Inside contains foaming thin foam inserts and has a loop for easy drying after use. It is made with a slightly narrowed cuff so that the wet product does not fall off the hand during use. The geometry of the jacquard loops, in combination with various combinations of threads, allows the product to be produced in all possible degrees of hardness “Soft”, “Medium”, “Hard”. It is put on alternately on hands and is used for its intended purpose.

Colors:

size 18,5×1×16 cm. (+/- 5%)

BATH WASHCLOTH “CHILDREN’S GLOVES”

Washcloth made of polypropylene thread and foam with a loop (short bristles), VERY SOFT AND GENTLE.

Children’s mitten - this soft and delicate washcloth is made in the form of a mitten with a loop. The size is ideal for a neat baby handle. It has foam inserts on both sides over the entire area of the product. The material of the product is absolutely safe for the child, because polypropylene is one of the safest materials, and the thread does not emit a dye pigment even when boiled. On the packaging, the children’s mitten is marked with the “Kids” hardness level.

Colors:

size 40×1×9 cm. (+/- 5%)

BATH WASHCLOTH “MATROSKA”

Sponge with polypropylene thread that foam rubber with handles. Combined. One layer is hard, the second is extra soft.

The sailor suit got its name from the color design. The series of horizontal stripes is reminiscent of naval jerseys from around the world. The colored stripe always has a tough structure, the white one is delicate like cashmere. This combination of soft and hard stripes gives the product a “Medium” degree of hardness. The washcloth has two comfortable durable handles so that you can easily wash the most inaccessible areas of the body. For foaming, it has a foam insert sewn inside over the entire area of the product.

Colors:

size: 51×12×0,5 cm. (+/- 5%)

BATH WASHCLOTH “BELT”

Washcloth made of polypropylene thread WITHOUT foam with handles.

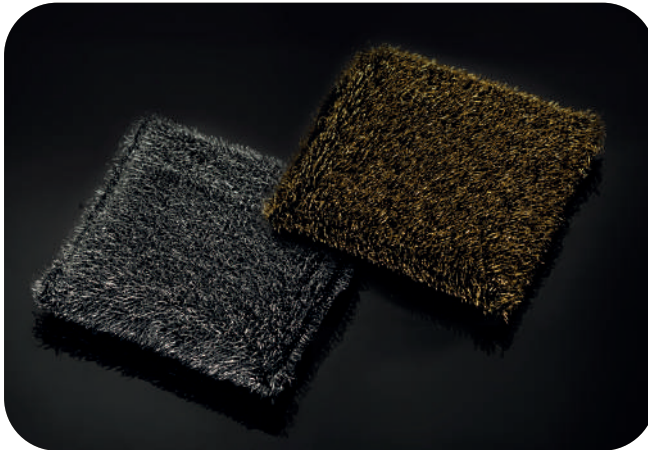

The Bath Belt is the longest and fluffiest scrubber in the line. Another difference is the lack of a foam insert. Jacquard is made of a combination of different yarns that, when blurred, form a foam. On the sides of the sponge, there is a sewn jacquard edging for the entire length. Also, this washcloth is equipped with durable and comfortable handles. This washcloth will be convenient and easy to wash even for the Giant.

Kitchen Washcloth

EVERYDAY SERIES DISHWASHING PADS

Colors:

size: 11×2×10 cm. (+/- 5%)

WASH FOR WASHING DISHES “ABSOLUTE CHAMPION”

Washcloth made of polypropylene thread and foam. For any surface, suitable for Teflon.

This kitchen sponge delicately cleans all types of surfaces and successfully fights even the most difficult dirt. Suitable for Teflon. The shape and thickness of the sponge allows you to wade to hard-to-reach places of the dishes. For example, it is convenient to wash handles on pots, grills. Quickly forms a thick foam on contact with detergents. We should also mention its appearance. Under the artificial light of the kitchen countertop, it shimmers like a piece of jewelry. A variety of colors will allow you to choose a sponge for any color scheme of the kitchen interior. This washcloth will always be a bright shiny spot to delight the eye when looking at the work surface, unlike a shapeless dull handful of scraper or a dirty piece of foam rubber.

Comfort

COMFORT SERIES

This washcloth will be convenient and easy to wash even for the Giant.

Colors:

size: 40×1×11 cm. (+/- 5%)

BATH WASHCLOTH “BOOM”

Washcloth made of polypropylene thread and foam with handles, decorated with lurex.

BOOM - the jacquard of this sponge is formed in longitudinal rows from small loops. Each buttonhole is embellished with shimmery yarn in a variety of shades, used to decorate clothing and lingerie. In the artificial light of the bathroom, this gives the washcloth an iridescent sheen. It also comes with two long, comfortable handles and a foam insert for foaming. Various combinations of threads used in the production of this sponge allow you to give it the hardness levels “HARD” and “SOFT”. Hardness level stickers are located on the packaging.

Colors:

size: 43×1×11 cm. (+/- 5%)

BATH WASHCLOTH “LUX”

Washcloth made of polypropylene thread and foam with handles (fluffy pile), decorated with lurex.

LUX is a long fluffy washcloth with comfortable handles. The jacquard is formed by long loops with interweaving of decorative threads of different shades. In artificial light, the sponge shimmers with a beautiful metallic sheen and can also serve as a decoration for the bathroom. Inside, a foam insert is sewn over the entire area for the formation of foam. The length of the jacquard loop and the combination of threads allows it to be produced in the degrees of hardness “MEDIUM” and “SOFT”.

Colors:

size: 40 × 1 × 9 cm. (+/- 5%)

BATH WASHCLOTH “SHINY STRIPES”

Washcloth made of polypropylene thread and foam with handles.

Shiny stripes is a long scrubber with handles. Jacquard is formed by horizontal stripes of varying degrees of rigidity. Soft stripes are formed by densely spaced small loops. A combination of threads of a rigid strip - a uniform surface, iridescent with a metallic sheen. Inside has a foam insert. The combination of soft and hard jacquard stripes gives the garment a level of “Medium” firmness.

COMFORT SERIES DISHWASHING PADS

Colors:

size: 11×2×10 cm. (+/- 5%)

DISHWASHING SPONGE “ABSOLUTE CHAMPION”

Washcloth made of polypropylene thread and foam.

This kitchen sponge delicately cleans all types of surfaces and successfully fights even the most difficult dirt. Suitable for Teflon.
