

GUIDELINES

FOR COSMETOLOGISTS

Your beauty is in the hands of professionals

FOR PROFESSIONAL USE

Green Pharm Cosmetic was founded in 2014 in Kharkiv. The company's arsenal contains unique recipes from the country's leading pharmacists and biochemists. Our balsams are developed on the basis of scientific researches in the field of corneotherapy and corneology. Our products are the only cosmetic products on the market of Ukraine, which as the declared action set the following task: to restore the barrier protective function of the skin. Our company does not add any chemical drugs or hormones. Only plant substances combined with high-tech methods.

Today, **Green Pharm Cosmetic** is one of the youngest and most popular and fast-growing national cosmetic companies.

Since its founding, **Green Pharm Cosmetic** is a company that designs the healing forces of nature for the pharmaceutical achievements of our century. The company offers a full range of facial and body care for use at home, spas and beauty salons, which provides clinically proven results. **CPC «GREEN PHARM COSMETIC»** is a niche cosmetic brand, whose products are manufactured in compliance with the strictest international standards.

The company constantly conducts scientific research, uses newly discovered ingredients, improves product quality and its appearance. The company has a name, scientific potential, active and talented employees and a great desire to work.

Today, customers have high demands on cosmetics: they read the composition, are interested in the place of origin of ingredients and their effectiveness. They carefully study the information on the Internet and select products with the highest concentration of active substances to achieve the best result.

Exclusively crafted from natural ingredients, **Green Pharm Cosmetic's** skin care products, oils, balsams and dietary supplements have been recognized worldwide for their clinically proven efficacy.

Green Pharm Cosmetic cultivates independence, which avoids the influence of fashion when creating new products.

Instead, the single and most important goal is to create innovative and effective products that improve the condition and beauty of our customers and adapt to the needs of each individual, thus creating a sophisticated personal approach:

- to use only safe ingredients, as well as natural raw materials of plant origin;
- development of production with the use of modern equipment and careful selection of raw materials;
- improvement of the organizational structure and increasing the personal interest and responsibility of all employees of the enterprise for the quality of products.

Cosmetic formulas from **Green Pharm Cosmetic** are unique and exclusive. They are based on the use of seaweed and valuable plant extracts with the most effective concentration and combination with the latest technologies. Essential and fatty cosmetic oils, as well as trace elements restore the balance of the skin. Together, they create a strong cocktail of active ingredients that penetrates through the deepest layers of the skin, promoting its detoxification and rapid recovery. The skin looks renewed, fresh and radiant.

The company fully controls the production process at all stages. We conduct numerous clinical trials of our products to ensure their maximum effectiveness.

The company's commitment to innovation means that we continuously research and use the latest and most hightech ingredients that can qualitatively affect the condition of your skin. **CPC «GREEN PHARM COSMETICS»** carefully selects the purest and most effective ingredients of the highest quality, which give youth and radiance to your skin.

Green Pharm Cosmetic products have a unique composition, namely:

- natural active ingredients (plant extracts, trace elements, sea ingredients);
- the best vegetable, essential and fatty cosmetic oils in high concentration, selected French ingredients, high-tech components (peptide identical to Botox, hyaluronic acid at different molecular levels).

The main product lines of the company:

Green Pharm Cosmetic is an exclusive Ukrainian brand specializing in the production of high quality and cosmetic products for home and professional care, a series of medicated balms, dietary supplements, fatty cosmetic and essential oils. Consider it in more detail.

1) Carboxy-, hydroxytherapy and peels.

Used when:

- photoaging;
- aging skin;
- facial wrinkles;
- acne (prevention and treatment);
- dull, gray skin;
- hyperpigmentation of the skin;
- scars.

2) Professional cosmetics.

1. Preparations for cleaning procedures, procedures with a lifting effect, treatment of acne, couperosis and rosacea, as well as the elimination of pigmentation disorders with or without the use of devices.
2. Masks for pre-peeling preparation, lifting and closing pores.
3. Serums with hyaluronic acid, pea proteins and viper venom tripeptide.
4. Phytogels to combat pigmentation, couperosis, cellulite.
5. Finishing cream «Epitalizant®» for skin regeneration after any cosmetic procedures associated with damage to the hydrolipid barrier of the skin.

Creams and fluids have restorative, protective and moisturizing properties.

3) Sprays and balsams 911.

1. Balsams and creams for body and face are therapeutic, safe, effective means, which include natural ingredients, extracts of various plants.

Applicable:

- with damaged, overdried, irritated skin;
- with bites, burns, injuries, cuts, scars;
- during the manifestation of various allergic reactions, eczema.

Sprays have:

- bactericidal, anti-inflammatory and antiseptic action;
- the components that make up the composition contribute to pain relief;
- relieve swelling and inflammation;
- deodorize the oral cavity.

4) Essential and fatty cosmetic oils.

The range includes 25 types of essential and 10 types of fatty cosmetic oils. In the near future it is planned to expand the range of fatty cosmetic oils to 50 items:

- natural;
- combined;
- with a wide range of action.

Raw materials are produced according to European standards in Germany.

Essential oils of our production can be used externally for cosmetic and therapeutic purposes:

- for aromatherapy;
- in baths and saunas, for massage, etc.

5) To maintain the tone of the body and improve the health of a poorly balanced diet, you need to add other components of comprehensive body support, such as **dietary supplements**.

6) Also in the assortment of the company there is a **series of sun-protection creams, a universal spray for protection against clots**, as well as a **series of products with panthenol**.

Every year **Green Pharm Cosmetic** is gaining momentum in development and expansion. Our company cooperates with the following organizations:

- 1) National University of Pharmacy. The company is a base for internships of students from National University of Pharmacy, Kharkiv.
- 2) O.M. Marzieiev Institute for Public Health National Academy of Medical Sciences of Ukraine, Kyiv.
- 3) Institute of Occupational Medicine of the National Academy of Medical Sciences of Ukraine, Kyiv.
- 4) L.I. Medved Institute of Ecohygiene and Toxicology, Kyiv.
- 5) Kharkiv National Medical University, Kharkiv.

The company's products are used for cosmetic and medical purposes. We work with large pharmacy chains and cosmetology centers throughout Ukraine. Our specialists conduct field seminars and workshops, participate in international cosmetic exhibitions.

Special attention is paid to the development of relations with distributors, personal meetings are held, consultations and support are provided, and special promotions are organized on the spot.

Work is constantly being carried out to restore the equipment of production departments, as a result of which the quality of products is improved, the working conditions of personnel are improved.

The synergy of nature and science for your beauty ...

LINE OF PROFESSIONAL COSMETICS

CLEANSING MILK pH 5,5

Milk with a liquid texture efficiently removes make-up (including eye make-up) and dissolves skin surface impurities. The specificity of this product is that it does not only remove impurities, but also moisturizes and nourishes the skin.

Sweet almond oil contained in the milk makes it a perfect moisturizer, which helps to protect skin from drying, preventing possible flaking.

APPLICATION: apply milk on the face using cotton pads. Measure a small amount from the bottle onto a cotton pad and distribute it on the face along massage lines. Gently remove the milk, washing it together make-up and impurities using a cotton pad. Repeat the procedure if necessary. After that, wash the residues with warm water or tonic lotion.

WARNING: do not use if the skin is hypersensitive to the components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Water (Aqua), Sweet Almond Oil, PEG-7 Glyceryl Cocoate, Cocamidopropyl Betaine, Propylene Glycol, Steareth-20, Cetearyl Alcohol, Isopropyl Myristate, Cetearyl Olivatate (and) Sorbitan Olivatate, PEG-40 Hydrogenated Castor Oil, Glyceryl Monostearate, Dimethicone, Allantoin, Disodium EDTA, Perfume, Phenonip.

Not a medicinal product.

Sweet Almond Oil	Softens the skin
Allantoin	Softens and moisturizes the skin

CLEANSING GEL pH 5,5

Gel perfectly removes dead epidermis cells; the skin surface becomes more even and smooth. Gel perfectly removes dead epidermis cells; the skin surface becomes more even and smooth.

It also refreshes and strengthens loose, dehydrated skin, improves its elasticity and tone, cleanses and tightens pores, adjusts the pH of the skin. The gel is suitable for all skin types, including sensitive skin.

APPLICATION: apply small amount of gel on wet face, mix it with water to foam, gently massage (also, the gel can be mixed with water on wet palms with further application of the obtained foam on face), then rinse with warm water, avoiding contact with eyes.

WARNING: do not use if the skin is hypersensitive to the components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Water (Aqua), Cocamidopropyl Betaine, Glycerin, Sodium Laurethsulfate, PEG-7 Glyceryl Cocoate, Sodium Chloride, Perfume, Allantoin, Lactic Acid, Tea Tree Oil, Nipaguard CMB.

Not a medicinal product.

Lactic Acid	Ectyolotic product; loosens the stratum corneum
Tea Tree Oil	Has germicidal effect
Allantoin	Softens and moisturizes skin

TONIC FOR PROBLEM SKIN pH 3,0

Tonic for the care of problem skin with manifestations of acne and rosacea has antibacterial, anti-acne and seborregulatory effects.

Due to the presence of organic sulfur, glycolic acid, vitamin A, D-panthenol and low molecular weight hyaluronic acid helps to normalize the keratinization of the hair follicle, hydration, slows down the formation of fatty acids that contribute to acne.

APPLICATION: apply with a cotton pad 2 times a day in the morning and evening on cleansed skin. After 3-5 minutes, if necessary, apply a cream (gel, etc.) according to the skin type. Apply as needed.

WARNING: do not use if the skin is hypersensitive to the components of the composition. Avoid contact with eyes.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Agua, Methyl Sulphonyl Methane, Propylene Glycol, Aloe Juice, Glycolic Acyd, Sodium Hyaluronate, D-Panthenol, Bídens Tripartíta Extract, Calendula officinalis Extract, Salvia Officinalis Extract, Butylene Glycol (and) PEG-40 Hydrogenated Castor Oil (and) Linoleic Acid (and) Linolenic Acid (and) Tocopheryl Acetate (and) Retinyl Palmitate (and) Glycine Soya (Soybean) Oil (and) Potassium Sorbate (and) Sodium Benzoate (and) Tocopherol, Metronidazole, Perfume, Phenonip.

Not a medicinal product.

Extracts of Calendula, Sage, Trailers and Metronidazole	Relieves inflammation and redness, has an antibacterial effect and soothes the skin
---	---

TONIC pH 5,5

The tonic gently cleans and moisturizes skin, restores natural hydrobalance and improves skin micropattern, gives it freshness, softness and healthy radiance, promotes tightening, accelerates regeneration, regulates lipid balance and helps to restore skin structure, saturate it with nutrients, making it more soft and velvety.

The lotion also normalizes skin pH.

APPLICATION: wipe face with a cotton pad soaked in tonic. The lotion can be applied both after cleansing milk, gel and scrub before applying cream or serum (at home) and after masks before applying cream (salon procedures).

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Water (Aqua), Propylene Glycol, Carbamide (Urea), Polyquaternium-7, PEG-7 Glyceryl Cocoate, PEG-40 Hydrogenated Castor Oil, Allantoin, Panthenol, Lactic Acid, Ascorbic Acid, Urtica Dioica Extract, Arctium Lappa Extract, Juniperus Communis Extract, Mentha Piperita Extract, Artemisia Absinthium Extract, Rosmarinus Officinalis Extract, Chamomilla Recutita (Matricaria) Flower Extract, Thymus Vulgaris Extract, Salvia Officinalis Extract, Mentha Piperita Oil, Disodium EDTA, Perfume, Nipaguard CMB.

Not a medicinal product.

Lactic Acid	Has cleansing and brightening effect
Panthenol	Natural enhancer
Urtica Dioica Extract	Tones skin, has astringent effect
Arctium Lappa Extract	Has cleansing and toning effect

TONIC WITH AHA ACIDS pH 3,5

Constant use of the tonic improves the quality of the skin, thickens the epidermis, and reduces the thickness of the horny layer. Has a mild sebo regulatory effect.

APPLICATION: soak a cotton pad with a small amount of tonic, apply on clean face skin along cosmetic lines, wait until it dries completely, apply cream according to skin type. Apply 1-2 times a day, preferably in the evening. When used during the day, apply a cream with SPF protection at least 50. Recommended for permanent use for the care of oily and combination skin, as well as a pre-peeling preparation for all skin types.

WARNING: do not use in case of hypersensitivity to the components of the composition and skin damage. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Agua, Propylene Glycol, Methylsulfonyl Methane, Aloe Barbadensis Leaf Juice, Lactic Acid, Glycolic Acid, Mandelic Acid, Sodium Hyaluronate, D-Panthenol, Allantoin, PEG-40 Hydrogenated Castor Oil, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

Lactic, Glycolic and Mandelic AHA Acids	Narrows pores, has an exfoliating and brightening effect
Moisturizing complex: low molecular weight Hyaluronic Acid and Aloe juice	Restores the hydrobalance of the skin, smoothes the microrelief and stimulates the renewal of cells of the deep layers of the epidermis

CLEANSING EXFOLIATING GEL pH 5,5

Cleansing exfoliating gel includes fine abrasive particles and softening natural base. Gently cleanses, "scrapes" dead skin cells, makeup residues, perspiration products and considerable impurities.

The gel also massages skin, stimulating blood circulation and making skin suppler without damaging it, what is more important.

APPLICATION: apply the exfoliating gel on wet face; rub in circular motions along massage lines. Rinse with warm water.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Water (Aqua), Cocamidopropyl Betaine, Glycerin, Sodium Laurethsulfate, PEG-7 Glyceryl Cocoate, PEG-40 Hydrogenated Castor Oil, Laureth-20, Titanium Dioxide, Tea Tree Oil, Hydrogenated Jojoba Oil Granules, Allantoin, Humulus Lupulus Extract, Epilobium Angustifolium Extract, Urtica Dioica Extract, Zingiber Officinale Root Extract, Xanthan Gum, Carbomer, Lactic Acid, Triethanolamine, Disodium EDTA, Phenonip.

Not a medicinal product.

Jojoba Granules	Base for mechanical exfoliation
Tea Tree Oil	Cleans epidermis
Urtica Dioica Extract	Tones skin
Humulus Lupulus Extract	Stimulates cellular metabolism and skin respiration
Epilobium Angustifolium Extract	Desensitizes skin, tightens pores
Zingiber Officinale Root Extract	Improves skin tightness
Lactic Acid	Ectyloitic product

TONIK WITH HYALURONIC ACID pH 5,5

Hyaluronic acid tonic is a moisturizing and toning agent with a high concentration of active ingredients: low molecular weight hyaluronic acid, marine collagen, royal orchid extract and stevia extract polysaccharides.

Suitable for dry and sensitive skin.

APPLICATION: apply a small amount of tonic on a cotton pad by pressing the dispenser, wipe clean skin along the cosmetic lines, including the area around the eyes. Wait for complete absorption, apply serum and/or cream according to skin type. Suitable for daily use.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Aqua, Propylene Glycol, Methylsulfonylmethane, Royal Orchid Extract, Polysaccharides Stevia Extract, Sodium Hyaluronate, Hydrolyzed Collagen, PEG-40 Hydrogenated Castor Oil, D-Panthenol, Lactic Acid, Aqua (and) Butylene Glycol (and) PEG- 40 Hydrogenated Castor Oil (and) Linoleic Acid (and) Linolenic Acid (and) Tocopheryl Acetate (and) Retinyl Palmitate (and) Glycine Soya (Soybean) Oil (and) Potassium Sorbate (and) Sodium Benzoate (and) Tocopherol, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

Active complex	Restore the hydrolipid balance and increase turgor of the skin
D-panthenol (Provitamin B5) and Vitamin complex A, E and F	Have a nourishing and regenerating effect, promote the activation of cell regeneration

DESINCRUSTANTION GEL FOR PORES OPENING pH 9,0

The gel was created for conducting deep professional skin cleansing using manual method of cold hydrogenation. Effectively exfoliates and dissolves dead epidermis cells, while the glands are carefully cleaned from secretion which easily frees the skin pores. The gel renews skin, makes skin structure even and improves the skin tone.

APPLICATION: machine method: desincrustation shall start from application of desincrustation gel on skin; then problem areas shall be treated using an electrode with a negative pole. Manual face skin cleansing: apply gel on cleansed face and cover it with film. Leave for 15-20 min. The exposure time depends on skin type.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Water (Aqua), Tween-80, Glycerin, Propylene Glycol, Sodium Carbonate, Sodium Hydrocarbonate, Hydroxyethylcellulose, Triethanolamine, Nipaguard CMB, Juniperus Communis, Daucus Sativus Seeds Extract, Myristica Fragrans Extract, Urtica Dioica Extract.

Not a medicinal product.

Juniperus Extract	Stimulates microcirculation, relieves irritation
Urtica Dioica Extract	Has protective effect

CLEANSING GEL WITH AHA ACIDS pH 4,0

Cleansing gel for washing with fruit acids gently cleanses, has a seoregulatory and exfoliating effect.

Regular use of the gel tightens pores, evens out skin color, brightens and gives the skin the elastic and healthy look.

APPLICATION: apply the small amount on damp skin, distribute with massage movements, avoiding contact with the eyes, rinse thoroughly with warm water.

WARNING: do not use in case of hypersensitivity to the components of the composition and skin damage.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Aqua, Coco Glucoside (and) Disodium Laurylsulfosuccinate (and) Glycerin, Cocamidopropyl Betaine, Cocamide DEA, Glycerin, Panthenol, Chamomilla Recutita Flower Extract, Calendula Officinalis Flower Extract, Glycolic Acid, Lactic Acid, Citric Acid, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, Perfume, Disodium EDTA.

Not a medicinal product.

Glycolic, Lactic and Citric Acids	Regulates the activity of skin glands, reduces hyperpigmentation, has the antioxidant effect
D-Panthenol, Extracts of Calendula and Chamomile	Have anti-inflammatory and bactericidal effects, preventing the manifestations of skin imperfections

VITAMIN MASK pH 5,5

Phytoactive vitamin mask is recommended for use as an active food and enhances the regenerative function of the skin, eliminates inflammation, gives it a healthy look and radiance. Also used in the complex care of skin prone to wrinkles.

The mask deeply and intensively nourishes, moisturizes, smoothes the skin surface, improves complexion and activates skin regeneration processes.

APPLICATION: apply along the massage lines on clean skin of the face and neck, leave until completely absorbed. After 20-30 (for maximum effect 30-40) minutes, remove the remnants of the mask with a cotton pad soaked in toning lotion or rinse with water. Apply 1-3 times a week or as needed.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Agua, Sweet Almond Oil, Macadamia Oil, PEG-40 Hydrogenated Castor Oil, Glycerin, Propylenglycol, Vitamin complex AEF, Oleum Calophyllum Inophyllum, Oleum Rosae, Oleum Hippophaes, Horse Chestnut Extract, Guarana Extract, Bidders Tripartita Extract, Carbopol, D-Panthenol, Essential Oil Grapefruit, Triethanolamine, Phenonip, Butylhydroxyanisole.

Not a medicinal product.

Complex of Vitamins AEF, Provitamin B5, Rosehip Oil, Sea Buckthorn and Tamanu	Nourishes, deeply moisturizes and rejuvenates the skin
Lymphatic and Drainage complex Extracts of bur Marigold, Horse Chestnut and Guarana	Tones the skin, eliminates edema and strengthens skin capillaries
Sweet Almond and Macadamia Oils	Provide additional nutrition and maintain the required hydrolipid balance of the upper layers of the skin, providing regenerating and rejuvenating effects

MOISTURIZING MASK pH 5,5

The moisturizing mask is designed for emergency moisturizing and nourishing skin prone to dryness and flaking, and will also be an excellent addition to the main care for the appearance of fine and mimic lines.

As a result of applying the mask, your skin will be provided with effective and deep hydration with prolonged action, fine wrinkles will be smoothed out, inflammation and dryness will disappear.

APPLICATION: apply along the massage lines on clean skin of the face and neck, leave until completely absorbed. After 20-30 (for maximum effect 30-40) minutes, remove the remnants of the mask with a cotton pad soaked in toning lotion or rinse with water. Apply 1-3 times a week or as needed.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Agua, Sweet Almond Oil, Macadamia Oil, PEG-40 Hydrogenated Castor Oil, Glycerin, Sorbitol, Propylenglycol, Cogniac Mannan, Hyaluronic Acid, Aloe Vera gel, Vitis Vinifera Seed Extract, Bidders Tripartita Extract, Carbopol, D-Panthenol, Essential Oil Tea Rose, Triethanolamine, Phenonip, Butylhydroxyanisole.

Not a medicinal product.

Low molecular weight Hyaluronic Acid, Aloe Vera gel, Mannan Cognac Polysaccharide and Grape Seed Extract	Fill with the necessary moisture and fixe it in the skin
Sweet Almond and Macadamia Oils	Provide additional nutrition and maintain the hydrolipid balance of the upper layers of the skin, providing regenerating and rejuvenating effects
Bur Marigold Extract and Panthenol	Soothe inflamed areas and relieve irritation

PEELING MASK WITH FRUIT ACIDS pH 4,0

Peeling mask contains a 10% complex of alphahydroacids that can affect the skin condition at molecular, cellular and tissue levels.

When applied to skin, the peeling mask has exfoliating, moisturizing, anti-inflammatory and antioxidant effect and stimulates skin synthesis of collagen and glycosaminoglycans.

APPLICATION: apply the peeling mask evenly on face, neck and neckline (film covering may be used), avoiding applying on eye area. The exposure time is 5-20 minutes. Rinse with warm water. At the daytime, cream with SPF-factor must be applied on skin. The mask can also be used on hands.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 30 or 50 ml.

INGREDIENTS: Water (Aqua), Glycerin, Glycolic Acid, Lactic Acid, Citric Acid, Ascorbic Acid, Cellulose Gum, Perfume.

Not a medicinal product.

Glycolic Acid	Has ectyloitic effect
Lactic Acid	Loosens stratum corneum
Citric Acid	Whitens and mattifies skin
Ascorbic Acid	Stimulates collagen synthesis

MASK FOR PORES CLOSURE pH 4,5

The mask contract pores, prevent inflammation, relieve redness and irritation and give skin healthy appearance, smoothness and tenderness.

The mask hydrate and whiten skin, stimulate skin regeneration, reduce puffiness and irritation and restore the acid-alkaline balance of skin.

APPLICATION: apply evenly on cleansed face skin, avoiding applying on eye area. Leave for 10-15 minutes. Rinse with warm water.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Water (Aqua), Kaolin, Zinc Oxide, Titanium Dioxide, Artemisia Absinthium Extract, Chamomilla Recutita Flower Extract, Achillea Millefolium Extract, Betula Pendula Extract, Hypericum Perforatum Extract, Vitis Vinifera Seed Extract, Phenonip.

Not a medicinal product.

Kaolin	Absorbs sebum residues
Artemisia Absinthium Extract	Reduces redness, itching and puffiness
Chamomilla Recutita Flower Extract	Has analgesic and antiseptic effect
Achillea Millefolium Extract	Anti-inflammatory effect; improves skin elasticity
Betula Pendula Extract	Restores the acid-alkaline balance of skin
Hypericum Perforatum Extract	Soothes skin
Vitis Vinifera Seed Extract	Stimulates cell renewal

MASK FOR PROBLEM SKIN pH 7,0

Mask for problem skin effectively cleanses the skin, dries and relieves inflammation.

APPLICATION: apply the mask along the massage lines on clean skin, preventing the area around the eyes, leave to dry completely. After 20-30 minutes, rinse with water. Apply 1-3 times a week or as needed.

WARNING: do not use if the skin is hypersensitive to the components of the composition. A short-term feeling of warmth or burning is possible.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Aqua, Zinc Oxide, Aluminium Silicate Hydroxide, Glycerin, Glycerin Monostearate, Propylene Glycol, Stearic Acid, Niacinamide, Chlorhexidine Digluconate, Ricinus Communis Seed Oil, PEG-40 Hydrogenated Castor Oil, Ceto Stearyl Alcohol, Piroctone Olamine, Bidens Tripartita Extract, Salvia Officinalis Extract, Panthenol, Rhodiola Rosea Root Extract, Bisabolol, Tea Trea Leaf Oil, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, CI 12490 (and) Aqua (and) Glycerin.

Not a medicinal product.

Niacinamide, Zinc Oxide and Kaolin	Regulate the activity of skin glands, narrow pores, eliminate oily shine, smooth the skin surface and lighten
Chlorhexidine, Sage Extracts, Herd, Rhodiola Rosea Root Extract and Tea Trea Leaf Oil	Has the bactericidal effect, prevents skin imperfections

DELICATE CARE MASSAGE SERUM WITH TROPICAL FRUIT CONCENTRATE pH 5,5

Delicate Care Massage Serum is designed for long-term massage of the skin of the face and body. Provides soft sliding, remaining on the skin during the entire procedure, makes massage movements light, comfortable and protects the skin from "stretching".

The serum has a soft texture, easy application, economical cost.

APPLICATION: apply the serum with light movements on cleansed skin, distribute evenly, let it melt for 1-3 minutes, start massaging. After the end of the procedure, remove with a sponge with toning lotion or rinse with water.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Agua, Perfume Oil, Cetearyl Olivat, Sorbitan Olivat, Ceteareth-20, Propylene Glycol, Dimethicone, Lanolin, Glycerin, Isopropyl Myristate, Cetylstearyl Alcohol, Sweet Almond Oil, Macadamia Oil, Tropic Fruits Extract, Guarana Extract, Bidens Tripartita Extract, Myristica Fragrans Nut Extract, Glycyrrhiza Glabra (licorice) Root Extract, Rosa Cinnamomea Extract, Hippophaes Oleum, Perfume, Vitamin Complex AEF, Phenonip, 2-bromo-2-nitropropane-1,3-diol.

Not a medicinal product.

Guarana, Burmarigold, Nutmeg, Rosehip and Licorice	Lightening and anti-edema effect, improves tissue metabolism and soothes sensitive skin
Almond, Macadamia and Sea Buckthorn Oil	Nourish and moisturize the skin, strengthen the skin's natural hydrolipid balance
Vitamin Complex AEF	Stimulates collagen production and has an antioxidant effect

DELICATE CARE MASSAGE SERUM WITH FOREST BERRIES AND STRAWBERRY CONCENTRATE pH 5,5

Delicate Care Massage Serum is designed for long-term massage of the skin of the face and body. Provides soft sliding, remaining on the skin during the entire procedure, makes massage movements light, comfortable and protects the skin from "stretching".

The serum has a soft texture, easy application, economical cost.

APPLICATION: apply the serum with light movements on cleansed skin, distribute evenly, let it melt for 1-3 minutes, start massaging. After the end of the procedure, remove with a sponge with toning lotion or rinse with water.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Agua, Perfume oil, Cetearyl Olivat, Sorbitan Olivat, Ceteareth-20, Propylene Glycol, Dimethicone, Lanolin, Glycerin, Isopropyl Myristate, Cetylstearyl Alcohol, Sweet Almond Oil, Macadamia Oil, Strawberry and Forest Berries Extract, Guarana Extract, Myristica Fragrans Nut Extract, Vitis Vinifera Seed Extract, Bidens Tripartita Extract, Vitamin Complex AEF, Perfume, Phenonip, 2-bromo-2-nitropropane-1,3-diol.

Not a medicinal product.

Guarana, bur marigold, nutmeg and grape seeds	Have a tonic and anti-edema effect, improve tissue metabolism and soothe sensitive skin
Almond, macadamia and sea buckthorn oil	Nourish and moisturize the skin, strengthen the skin's natural hydrolipid balance
Vitamin Complex AEF	Stimulates collagen production and has an antioxidant effect

DELICATE CARE MASSAGE CREAM WITH VANILLA EXTRACT pH 5,5

Delicate Care Massage Cream is designed for long-term massage of the skin of the face and body. Provides soft sliding, remaining on the skin during the entire procedure, makes massage movements light, comfortable and protects the skin from "stretching".

Cream has a delicate texture, easy application, economic cost.

APPLICATION: apply the cream with light movements on cleansed skin, distribute evenly, let it melt for 1-3 minutes, start massaging. After the end of the procedure, remove with a sponge with toning lotion or rinse with water.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Agua, Perfume Oil, Isopropyl Myristate, Propylene Glycol, Stearic Acid, Glycerin, Dimethicone, Distillated Monoglycerid, Lanolin, Glycerilmonostearat, Cetearyl Alcohol, Theobroma Cacao Seed Butter, Butyrospermum Parkii Butter, Sweet Almond Oil, Macadamia Oil, Vitis Vinifera Seed Extract, Vanilla Tahitensis Extract, Horse Chestnut Extract, Symphytum Officinale Extract, Equisetum Arvense Extract, Bidens Tripartita Extract, Triethanolamine, Fragrance, Phenonip.

Not a medicinal product.

Horse chestnut, bur marigold and horsetail	Have anti-edema and tonic effect, strengthen blood vessels, improve tissue metabolism and soothe sensitive skin
Extracts of grape seeds, vanilla and comfrey	Moisturize and stimulate the regeneration of damaged epidermis
Cocoa butter, shea butter and sweet almond and macadamia oils	Restores skin cell membranes, strengthens the natural hydrolipid balance

BIOPROTECTOR® CREAM pH 5,5 SPF - 25

Full skin protection from free radicals and adverse weather conditions. Reduces skin sensitivity to harmful external and internal factors. Improves the process of regeneration, has anti-inflammatory and UV protective properties. Gives skin a powerful protection against moisture loss, thereby promoting fibroblasts (young cells) proliferation and protection of collagen-elastin fibers from damage.

Helps to retain skin elasticity and youth. Acts as prevention of photoaging. The cream forms a thin protective film on skin surface. Applied all over face, including eye area and neck, it can be used as day care for problem skin. Does not dry or tighten skin.

APPLICATION: apply a thin layer on clean face just before going out. Can be applied under makeup. The cream can also be used as protective hand cream or lip balm.

WARNING: do not use if the skin is hypersensitive to the components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

PHARMACEUTICAL FORM: 100 ml.

INGREDIENTS: Water (Aqua), Silybum Marianum Oil, Calophyllum Inophyllum (Tamanu) Oil, Nigella Sativa Seed Oil, Chamomilla Recutita (Matricaria) Flower Extract, Achillea Millefolium Extract, Hypericum Perforatum Extract, Distilled Monoglyceride, Glycerin, Propylene Glycol, Lanolin, Cetearyl Alcohol, Stearic Acid, Glyceryl Monostearate, Benzophenone, Zinc Oxide, Titanium Dioxide, Phenonip, Triethanolamine.

Not a medicinal product.

Calophyllum Inophyllum (Tamanu) Oil	Has a regenerating effect
Chamomilla Recutita (Matricaria) Flower Extract	Healing, soothing effect, natural UV filter
Achillea Millefolium Extract	Skin regeneration
Hypericum Perforatum Extract	Antiseptic, protective, antifungal effect

COMEDONES AND ACNE CONTROLLING PHYTOGEL pH 5,5

The phyto gel formula includes active herbal components that reduce the activation of coccal flora, have keratoplastic effect and reduce hypersecretion of sebaceous glands.

The phyto gel has active effect on acne areas (papules, pustules, comedones, hyperkeratosis) and also has positive effect on skin with pitted acne scars (congestions, atrophic and hypertrophic scars). Does not make skin dry.

APPLICATION: during ultrasonic phonophoresis, iontophoresis or microcurrent treatment apply phyto gel all over the face evenly, or apply it according to procedure protocols.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Water (Aqua), Propylene Glycole, PEG-40 Hydrogenated Castor Oil, Calendula Officinalis Flower Extract, Achillea Millefolium Extract, Vitis Vinifera Seed Extract, Artemisia Absinthium Extract, Humulus Lupulus Extract, Aesculus Hippocastanum Seed Extract, Allantoin, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

Calendula Officinalis Flower Extract	Removes excess oil
Achillea Millefolium Extract	Has fungicidal effect
Vitis Vinifera Seed Extract	Regulates sebum secretion
Artemisia Absinthium Extract	Antibacterial and antiseptic effect
Humulus Lupulus Extract	Sedative cleansing and toning effect
Aesculus Hippocastanum Seed Extract	Stimulates metabolic processes in cells

WHITENING PHYTOGEL pH 5,5

Modern and safe advanced product whitens pigmentation regardless of its depth and causes. Due to active herbal components, it significantly slows skin synthesis of melanin.

The process of epidermis cell renewal also accelerates, thereby excess melanin is removed from skin; it becomes smooth, elastic and white. The phyto gel formula includes active moisturizing, emollient and protective components. The product is effective against pigment spots not only on face, but on body as well.

APPLICATION: during ultrasonic phonophoresis apply phyto gel all over the face or on the pigmented area. Non-machine cosmetology: apply under a film or alginate.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Water (Aqua), Glycerin, Aqua (and) Amorphophallus Konjac Root Extract, Papain, Propylene Glycol, PEG-7 Glyceryl Cocoate, Allantoin, Artemisia Absinthium Extract, Humulus Lupulus Extract, Rosa Canina Fruit Extract, Chamomilla Recutita Flower Extract, Betula Pendula Extract, Arctostaphylos Uva-Ursi Extract, Glycyrrhiza Glabra Root Extract, Sodium Hyaluronate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

Amorphophallus Konjac Root Extract	Has regenerative and moisturizing properties
Papain	Cleanses skin
Artemisia Absinthium Extract	Has strong antipruritic effect
Humulus Lupulus Extract	Stimulates cellular metabolism
Rosa Canina Fruit Extract	Regenerates and whitens skin
Chamomilla Recutita Flower Extract	Softens skin
Betula Pendula Extract	Capillary strengthening effect
Arctostaphylos Uva-Ursi Extract	Has whitening effect
Glycyrrhiza Glabra Root Extract	Initiates and sustains the process of whitening
Sodium Hyaluronate	Powerful moisturizer

ANTICELLULITE PHYTOGEL pH 5,5

The active ingredients of this phytogel provide high efficiency for treatment and prevention of cellulite. Plant complex penetrates skin barrier, promotes the process of splitting saturated fat, improves blood circulation (has positive effect on lymph, forcing it to move faster without stagnation), resulting in removal of toxins and free radicals from skin cells, cleansing and detoxification of treated areas, also improving skin appearance.

As a preventive measure, the gel application prevents lipogenesis.

APPLICATION: apply phytogel on problem areas after exfoliating and use the correspondent equipment. Non-machine methods: apply phytogel under a film after massage.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Water (Aqua), Glycerin, Mentha Piperita Extract, Vitis Vinifera Seed Extract, Capsicum Frutescens Extract, Coffea Arabica Seed Extract, Dianthus Caryophyllus Extract, Calendula Officinalis Flower Extract, Artemisia Absinthium Extract, Myristica Fragrans Extract, Sodium Hyaluronate, Mentha Piperita Essential Oil, Carbomer, Triethanolamine, PEG-7 Glyceryl Cocoat, Phenonip.

Not a medicinal product.

Mentha Piperita Extract	Has vasoconstrictor effect
Vitis Vinifera seed Extract	Helps strengthening connective tissues
Capsicum Frutescens Extract	Local irritant, improves blood circulation
Coffea Arabica seed Extract	Accelerates splitting of fat deposits in subcutaneous tissues, has lymphatic drainage effect
Dianthus Caryophyllus Extract	Restores blood circulation
Calendula Officinalis Flower Extract	Tones skin
Artemisia Absinthium Extract	Has anti-inflammatory effect
Myristica Fragrans Extract	Reduces skin laxity
Mentha Piperita Essential Oil	Antioxidant effect

ANTI-COUPEROSE PHYTOGEL pH 5,5

Modern angioprotective agent of plant origin for all skin types with couperosis. The gel strengthens vessel walls, improves their tone, reduces angiasthenia and protects them against harmful effects of environment. Also has moisturizing and softening effect. At regular use, the gel restores microcirculation, effectively affects blood vessels and removes redness and vascularity spots.

Active complex of this phytogel contains vitamin K, which helps strengthening surface capillaries. Also suitable for skin prone to redness due to aggressive weather conditions and extreme temperatures.

APPLICATION: apply on couperosis area using machine techniques. At use without equipment: apply an even layer of gel on face under a film.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Water (Aqua), Glycerin, Allantoin, Calendula Officinalis Flower Extract, Capsella Bursapastoris Extract, Chamomilla Recutita Flower Extract, Eleutherococcus Senticosus Extract, Rosa Canina Fruit Extract, Urtica Dioica Extract, Sodium Hyaluronate, Propylene Glycol, Carbomer, Triethanolamine, PEG-7 Glyceryl Cocoate, Phenonip.

Not a medicinal product.

Calendula Officinalis Flower Extract	Regenerates skin, strengthens capillaries
Capsella Bursapastoris Extract	Has haemocathartic effect
Chamomilla Recutita Flower Extract	Improves blood circulation in skin
Eleutherococcus Senticosus Extract	Has tonic effect
Rosa Canina Fruit Extract	Prevents accumulation of decay products in skin
Urtica Dioica Extract	Stimulates cell metabolism
Sodium Hyaluronate	Moisturizes skin

EPIELISANT® CREAM pH 6,2

Revitalizing therapeutic cream for damaged, sensitive skin. The cream may be used for injuries associated with damage of hydrolipidic film or dermatological diseases involving violation of integrity of epidermal barrier.

Immediate application of Epitelisant cream after performing cosmetic procedures helps to form a thin protective layer on skin, thereby significantly reducing the probability of development of infectious complications. The effect is similar to wet sterile bandage.

APPLICATION: apply even layer of mask on face with massaging movements at the end of procedure.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Water (Aqua), Silybum Marianum Oil, Artemisia Absinthium Extract, Chamomilla Recutita Flower Extract, Calophyllum Inophyllum Oil, Achillea Millefolium Extract, Betula Pendula Extract, Hypericum Perforatum Extract, Vitis Vinifera Seed Extract, Glycerin, Triethanolamine, Cetearyl Alcohol, Distilled Monoglyceride, Lanolin, Stearic Acid, Propylene Glycol, Glyceryl Monostearate, Phenonip.

Not a medicinal product.

Silybum Marianum Oil	Has strong cicatrizing properties
Calophyllum Inophyllum Oil	Has strong regenerative effect
Chamomilla Recutita Flower Extract	Reduces inflammation and irritation
Achillea Millefolium Extract	Anti-Inflammatory effect
Betula Pendula Extract	Has antiseptic effect
Hypericum Perforatum Extract	Has strong germicidal effect
Vitis Vinifera seed Extract	Antioxidant effect
Artemisia Absinthium Extract	Synergy of antiseptic and antibacterial effect

PHYTOGEL FOR DEEP CLEANSING OF FACE SKIN pH 5,0

PhytoGel for deep cleansing of the skin, foam - a delicate cream cleanser.

Thanks to its ultra-soft formula, it gently cleanses the skin of the face, removes the remaining secretions of the skin glands and other impurities, and gives the skin a light mattifying effect.

APPLICATION: by 2-3 clicks of the dispensing nozzle, squeeze out a small amount of foam, apply on the face skin in circular movements along massage lines, avoiding the area around the eyes, rinse thoroughly with water until the foam disappears.

WARNING: do not use if the skin is hypersensitive to the components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse thoroughly with water.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Water (Aqua), Cocamidopropil Betain, Coco-Glucoside (and) Disodium Laureth Sulfosuccinat (and) Glycerin, Glycerin, Propylene Glycole, Poliqaternium PQ-7, D-Panthenol, Extract (Leafe Juise) Aloe Vera, Lactic Acid, Fragrance, Phenonip.

Not a medicinal product.

Lactic Acid	Regulates the sebaceous glands and has a keratolytic (exfoliating) effect
Aloe Vera Extract	Has a moisturizing, soothing, anti-inflammatory effect
D-Panthenol	Eliminates irritation

BEAUTY TONIC ANTISEPT pH 7,0

Antisept tonic is a cosmetic product without smell and color, which has broad antibacterial spectrum.

The composition contains no alcohols or solvents, so it is absolutely safe. It is an advanced antiseptic preparation.

APPLICATION: spray on skin from a distance of 20-30 cm. It is recommended to use before and after procedures. Suitable for hands disinfection.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 150 ml.

INGREDIENTS: Water (Aqua), Polyhexamethyleneguanidine Hydrochloride.

Not a medicinal product.

Polyhexamethyleneguanidine Hydrochloride	Bacteriological, fungicidal, germicidal effect
--	--

SKIN CARE AFTER COSMETOLOGICAL PROCEDURES SPF 50

A spray specially designed for skin care after active cosmetic procedures: peelings, carboxytherapy, hydroxytherapy, grinding, laser. It has a light texture, absorbs quickly, does not leave greasy marks.

The product is adapted to all skin types and protects it from UV rays, hyperpigmentation, premature aging and allergic dermatitis caused by sunlight.

APPLICATION: shake the vial before use. Apply evenly and spread over the entire skin surface. At high sun activity, apply every 2-3 hours and after contact with water

WARNING: do not use in case of hypersensitivity to separate components of the composition.

PHARMACEUTICAL FORM: 120 ml.

INGREDIENTS: Aqua (Water), Sweet Almond (Prunus Dulcis) Oil , Butyrospermum Parkii (Shea) Butter, Ethylhexyl Methoxycinnamate, Benzophenone-3, Dimethicone, Isopropyl Myristate, Ceteareth-20, Glyceryl Monostearate, Propylene Glycol, PEG-7 Glyceryl Cocoate, Polysorbate 80, Titanium Dioxide, Zinc Oxide, Panthenol, Phenonip®, Disodium EDTA, Parfums, Butylhydroxyanisole.

Not a medicinal product.

PEELS

SALICYLIC PEEL – 30% pH 1,5

The peel has ectyloytic effect; it dissolves lipids and causes exfoliation of dead and damaged cells. The product is suitable for oily skin and skin with acne. It reduces wrinkles, skin blemishes and hyperpigmentation, improves skin texture and tonicity.

Salicylic acid has mild irritant effect and does not penetrate into deep skin layers.

EFFECT:

- removing dead cells;
- fighting acne;
- preventing formation of comedones;
- seoregulation;
- anti-inflammatory effect;
- antifungal effect.

INDICATIONS:

- I-II stage acne;
- seborrhea;
- skin microrelief damage;
- small wrinkles;
- hyperpigmentation;
- fading skin.

CONTRAINDICATIONS:

1. Individual intolerance.
2. Skin integrity damage.
3. Inflammatory process on skin.
4. Acute inflammatory lesions (herpes, pyoderma, etc.).
5. Infectious skin diseases.
6. Excessive exposure of skin to sunlight.
7. Pregnancy and lactation period.

PRE-PEELING PREPARATION:

Once a week, for two weeks the client shall apply Peeling mask with fruit acids. Every morning the client shall apply SPF-25 Bioprotector® cream.

PROTOCOL OF USE:

1. Apply Cleansing gel on skin and rinse it. Dry skin carefully.
2. Use fan-like brush to apply 0.5-1 ml of peel on the skin surface quickly in the following sequence: forehead; temples; side surface of cheeks; cheeks; chin; nose; upper lip. During application, the patient may have burning sensation. Exposure time is 3-7 minutes. Peel applying in layers is possible.
3. Apply Epitelisant® cream; wait until it is absorbed.
4. Apply SPF-25 Bioprotector® cream.

POST-PEELING CARE

The first 3 days after the procedure the client shall use Epitelisant cream and SPF-25 Bioprotector® cream. Starting from the 4 day, the client shall use only SPF-25 Bioprotector® cream; depending on given directions, the client can also use Comedones and acne controlling phytogel. Peeling course duration is 5-7 procedures at intervals of 7-14 days. Desquamation begins 2 days after the procedure. Exfoliation lasts for 5-7 days.

INGREDIENTS: Salicylic Acid 30%.

Not a medicinal product.

PHARMACEUTICAL FORM: 18 ml.

The client shall be warned on impermissibility of individual removal of appearing crusts or film. Avoid peel contact with eyes.

JESSNER PEEL pH 1,5

Combined-effect peel. It is a superficial peel, but in case of using a specific technology of application (with large number of layers), the obtained results can be compared with those obtained after using medium peel.

The intensity of post-peeling reactions depend on the depth of exposure.

EFFECT:

- removing dead cells and sebum production controlling;
- fighting hyperpigmentation;
- melanin synthesis regulation;
- moisturizing;
- relief evening.

INDICATIONS:

- fading skin;
- small wrinkles;
- seborrhea;
- hyperpigmentation;
- solar and senile lentigo;
- ephelides (freckles);
- hyperkeratosis;
- I-II stage acne;
- traction atrophy (striae).

CONTRAINDICATIONS:

1. Individual intolerance.
2. Skin integrity damage.
3. Inflammatory process on skin.
4. Active herpes.
5. Active chronic dermatoses.
6. Excessive exposure of skin to sunlight.
7. Pregnancy and lactation period.
8. Tendency to formation of hyperpigmentation.

PRE-PEELING PREPARATION:

Once a week, for two weeks the client shall apply Peeling mask with fruit acids. Every morning the client shall apply SPF-25 Bioprotector® cream.

PROTOCOL OF USE:

1. Apply Cleansing gel on skin and rinse it. Dry and de-oil skin carefully.
2. Use cotton bud to apply 0.5-1 ml of peel on the skin surface quickly in the following sequence: forehead; temples; side surface of cheeks; cheeks; chin; nose; upper lip. Exposure time is 5-15 minutes (until senses of discomfort are gone). Apply neutralizer and rinse the skin with water.
3. Apply Epitelisant® cream; wait until it is absorbed.
4. Apply SPF-25 Bioprotector® cream.

POST-PEELING CARE

Bioprotector® cream; depending on given directions, the client can also use Comedones and acne controlling phytogel. Peeling course duration is 5-10 procedures at intervals of 14 days.

INGREDIENTS: Resorcinol 14%, Salicylic Acid 14%, Lactic

Acid 14%.

Not a medicinal product.

PHARMACEUTICAL FORM: 18 ml.

Formation of brown crusts is normal for this peeling type. The client shall be warned on impermissibility of individual removal of appearing crusts or film. Avoid peel contact with eyes.

MANDELIC PEEL – 40% pH 1,5

This superficial peel may be used all year round. Phenylglycolic acid has large molecules, which facilitates controlled penetration of the product.

Peeling is usually well tolerated; it provides effective and soft exfoliation. It can be recommended for clients with sensitive skin and dark phototype.

EFFECT:

- ectyologic;
- antibacterial;
- anti-comedone;
- moisturizing;
- whitening;
- resurfacing.

INDICATIONS:

- I-II stage acne;
- seborrhea;
- photoaging;
- hyperpigmentation;
- hyperkeratosis;
- couperosis.

CONTRAINDICATIONS:

1. Individual intolerance.
2. Skin integrity damage.
3. Inflammatory process on skin.
4. Active herpes.
5. Pregnancy and lactation period.

PRE-PEELING PREPARATION:

Once a week, for two weeks the client shall apply Peeling mask with fruit acids. Every morning the client shall apply SPF-25 Bioprotector® cream.

PROTOCOL OF USE:

1. Apply Cleansing gel on skin and rinse it. Dry and de-oil skin carefully.
2. Use fan-like brush to apply 0.5-1 ml of peel on the skin surface quickly in the following sequence: forehead; temples; side surface of cheeks; cheeks; chin; nose; upper lip; eye contour area. Exposure time is 5-10 minutes. Signal for exposure cessation is emergence of light-pink erythema. Apply neutralizer and rinse the skin with water.
3. Apply Epitelisant® cream; wait until it is absorbed.
4. Apply SPF-25 Bioprotector® cream.

POST-PEELING CARE

The first 3 days after the procedure the client shall use Epitelisant® cream and SPF-25 Bioprotector® cream. Starting from the 4 day, the client shall use only SPF-25 Bioprotector® cream. Depending on given directions, the client can also use Comedones and acne controlling phytogel and Whitening phytogel or Anticouperose phytogel. Peeling course duration is 7-10 procedures at intervals of 7-14 days. The course shall be given once per year. There shall be slight exfoliation at the 2-4 day after the procedure. The effect increases after each procedure. During the first procedures, there may be no burning sensations or tingling: it is normal and it is not a sign of weak effect of peeling. After peeling, a slight erythema may occur, which may persist for up to several hours.

INGREDIENTS: Water, Mandelic Acid, Carbopol.

Not a medicinal product.

PHARMACEUTICAL FORM: 18 or 30 ml.

The client shall be warned on impermissibility of individual removal of appearing crusts or film. Avoid peel contact with eyes.

PYRUVIC PEEL – 40% pH 1,5

Combined-effect peel; its formula includes pyruvic and glycolic acid. Pyruvic acid has high penetrating power due to its lipophilicity.

At the same time, glycolic acid enhances functioning of skin barrier, prevents water loss and increases skin hydration level. When applied in several layers, the peel becomes active at medium depth.

EFFECT:

- sebostatic;
- anti-comedone;
- moisturizing;
- depigmentation;
- exfoliation.

INDICATIONS:

- seborrhea;
- rosacea;
- I-II stage acne
- hyperpigmentation;
- hyperkeratosis;
- photoaging;
- fading skin.

CONTRAINDICATIONS:

1. Individual intolerance.
2. Skin integrity damage.
3. Inflammatory process on skin.
4. Active herpes.
5. Pregnancy and lactation period.
6. Long-term exposure to sun or tanning lamps.
7. Asthma.

PRE-PEELING PREPARATION:

Once a week, for two weeks the client shall apply Peeling mask with fruit acids. Every morning the client shall apply SPF-25 Bioprotector® cream.

PROTOCOL OF USE:

1. Apply Cleansing gel on skin and rinse it. Dry and de-oil skin carefully.
2. Use cotton bud to apply 0.5-1 ml of peel on the skin surface quickly in the following sequence: forehead; temples; side surface of cheeks; cheeks; chin; nose; upper lip. Exposure time is individual and ranges from 3 to 4 minutes. Signal for peel exposure cessation is emergence of erythema. Apply neutralizer and rinse the skin with water.
3. Apply Epitelisant® cream; wait until it is absorbed.
4. Apply SPF-25 Bioprotector® cream.

POST-PEELING CARE

The first 3 days after the procedure the client shall use Epitelisant® cream and SPF-25 Bioprotector® cream. Starting from the 4 day, the client shall use only SPF-25 Bioprotector® cream. Depending on given directions, the client can also use Comedones and acne controlling phytogel and Whitening phytogel or Anticouperose phytogel. Peeling course duration is 5-10 procedures at intervals of 14 days. The course shall be given once per year; supporting course – 1 procedure every 1-1.5 months. There shall be slight exfoliation at the 2-4 day after the procedure. After peeling, a slight erythema may occur, which may persist from several to 24 hours.

INGREDIENTS: Water, Pyruvic Acid 40%, Glycolic Acid 10%, Carbopol.

Not a medicinal product.

PHARMACEUTICAL FORM: 18 ml.

Pyruvic acid has a specific smell and can be irritating for upper respiratory system. Therefore, the procedure shall be performed in well-ventilated location with open windows. Take special care when performing peeling to clients prone to bronchospasm. Avoid peel contact with eyes.

TCA PEEL 10% pH 1,0

TCA peel is a superficial-medium peel; it is suitable for all skin types and causes practically no burning sensations. The penetration depth depends on the number of layers applied on skin.

Trichloroacetic acid has ectyloitic and stimulating effect. It is neutralized as it passes through the skin layers and causes proteins coagulation.

EFFECT:

- rejuvenating;
- anti-couperosis;
- resurfacing.

INDICATIONS:

- fading skin;
- wrinkles;
- seborrhea;
- I stage acne;
- hyperkeratosis;
- photoaging;
- wrinkles in eye contour area.

CONTRAINDICATIONS:

1. Individual intolerance.
2. Skin integrity damage.
3. Inflammatory process on skin.
4. Active herpes.
5. Active chronic dermatoses.
6. Excessive exposure of skin to sunlight.
7. Pregnancy and lactation period.
8. Tendency to formation of hyperpigmentation.

PRE-PEELING PREPARATION:

Once a week, for two weeks the client shall apply Peeling mask with fruit acids. Every morning the client shall apply SPF-25 Bioprotector® cream.

PROTOCOL OF USE:

1. Apply Cleansing gel on skin and rinse it. Dry and de-oil skin carefully.
2. Use cotton bud to apply 0.5-1 ml of peel on the skin surface quickly in the following sequence: forehead; temples; side surface of cheeks; cheeks; chin; nose; upper lip; eye contour area (up to ciliary margin area). During application, the patient may have burning sensation. Depending on the number of layers, on the skin surface there may appear the so-called frost-effect: its intensity is a measure of penetration depth, and its uniformity is a sign of evenness of material application on treated skin areas. The number of layers depends on required penetration depth. 5-7 minutes shall pass between repeated applications. Layer-by-layer application method shall be used for effect enhancement. Apply no more than 2 layers on sensitive skin and no more than 3 layers on skin with normal sensitivity.
3. Apply SPF-25 Bioprotector® cream.

POST-PEELING CARE

The first 3 days after the procedure the client shall use Epitelisant® cream and SPF-25 Bioprotector cream. Starting from the 4 day, the client shall use only SPF-25 Bioprotector® cream. Peeling course duration is 3-5 procedures at intervals of 2-4 weeks.

INGREDIENTS: Water, Frichloroacetic Acid 10%, Carbopol.
Not a medicinal product.

PHARMACEUTICAL FORM: 18 or 30 ml.

The client shall be warned that he (she) shall wash his (her) face only in 24 hours. Appearing crusts or film must not be removed. Avoid peel contact with eyes.

POST-PEEL NEUTRALIZER pH 10

The post-peel neutralizer has a gel-like texture. The gel formula neutralizes the acid residues on skin and restores the acid-alkaline balance of skin after peeling.

The gel components have soothing, moisturizing and anti-inflammatory properties.

APPLICATION: apply the post-peel neutralizer on skin after peel removal or in 2-3 minutes before the end of the procedure directly on the peel.

WARNING: do not use in case of hypersensitivity to separate components of the composition.

PHARMACEUTICAL FORM: 250 ml.

INGREDIENTS: Water (Aqua), Sodium Bicarbonate, Dimethyl Sulfone, Cellulose Gum, Propylene Glycol, Nipaguard.

Not a medicinal product.

CARBOXY THERAPY CO_2 ,
HYDROXY THERAPY,
SKINTER® ULTRA K_1O_2

CARBOXY THERAPY CO₂ INTENSIVE

Helps to reduce signs of photoaging, has lifting effect, improves the physiological condition of the skin. Removes toxins from the skin. Reduces acne and post-acne, signs of rosacea and pigmentation.

Has antiage properties: reduces wrinkles, increases skin elasticity, stimulates the production of collagen and elastin. Reduces scars. It has a powerful detoxification effect.

CONTRAINDICATIONS: pregnancy and lactation, herpes, skin lesions, dermatological diseases, acute inflammation. Before the procedure, test for an allergic reaction. **For professional use only.**

APPLICATION: rate of holding 4 to 10 procedures once a week. Then a maintenance treatment once a month.

PHARMACEUTICAL FORM: set of sachets in a package of 150 ml (designed for 5 procedures. It is recommended for 1 procedure to use 1 sachet (10 ml) of each number according to the procedure protocol) and a set of bottles in a package of 420 ml.

WARNING: do not use in case of hypersensitivity to separate components of the composition.

1. GEL-EXFOLIATOR

The gel contains alpha-hydroxy acids, which contribute to the mild exfoliation of cells from the skin's surface and penetration of active ingredients into the dermis. Created for the first phase of the non-invasive of carboxytherapy.

APPLICATION: apply gel-exfoliator to cleansed skin. Leave for 5 minutes.

INGREDIENTS: Water (Aqua), Glycerin, Glycolic Acid, Carbomer, Lactic Acid, Ascorbic Acid (Vitamin C), Citric Acid, Perfume.

Not a medicinal product.

PHARMACEUTICAL FORM: sachet 10 ml or vial 120 ml.

2. GEL-ACTIVATOR

Gel activator provides the Bohr effect (increase oxygen uptake of the skin due to separation of carbon dioxide and water. Established for carrying out the second phase of the non-invasive of carboxytherapy. Improves blood circulation in capillaries, reduces swelling. Improves the skin's ability to absorb and transport the useful components.

APPLICATION: apply liberally the gel-activator gel-exfoliator for 20 minutes. After applying the expected slight burning sensation. Thoroughly rinse with water.

INGREDIENTS: Water (Aqua), Tylose, Sodium Hydrocarbonate, Nipaguard™ CMB.

Not a medicinal product.

PHARMACEUTICAL FORM: sachet 10 ml or vial 150 ml.

3. SOOTHING GEL

Soothing gel to complete non-invasive of carboxytherapy. Reinforces the effect of the gel-exfoliator and gel-activator. The active components in the final stage of the procedure deeply penetrate the skin. Aloe extract, hyaluronic acid soothe and hydrate the skin. Collagen and complex vitamins help to increase elasticity of the skin, nourish it. The complex components reduce reddening, stimulate the regeneration of skin cells and production of extracellular matrix.

APPLICATION: apply the gel on cleansed skin. Leave for 20 minutes. Thoroughly rinse with water. To complete the procedure cream according to skin type.

INGREDIENTS: Sodium Alginate, Water (Aqua), Glycerin, Soluble Collagen (Desamidocollagen), Sodium Hyaluronate, Aloe Vera Extract, Allantoin, Dimethyl Sulfone, PEG-40 Hydrogenated Castor Oil, Retinol (Vitamin A), Tocopheryl Acetate (Vitamin E), Linoleic Acid (Vitamin F), Urea, Phenonip®, Perfume.

Not a medicinal product.

PHARMACEUTICAL FORM: sachet 10 ml or vial 150 ml.

CARBOXY THERAPY CO₂ INTENSIVE FOR BODY

Carboxytherapy for the body eliminates sagging skin, improves blood circulation, removes excess fluid and improves the physiological condition of the skin. Has a powerful detoxifying effect. .

It is recommended for use in anti-cellulite programs to restore skin tone and reduce stretch marks after childbirth and weight loss.

CONTRAINDICATIONS: pregnancy and lactation, herpes, skin lesions, dermatological diseases, acute inflammation. Before the procedure, test for an allergic reaction. **For professional use only.**

APPLICATION: speed of carrying out from 10 to 15 procedures once a week. After a while it is recommended to repeat the course.

WARNING: do not use in case of hypersensitivity to separate components of the composition. It is not recommended to treat more than 20% of the skin in one procedure. **Do not use the product for the face and décolleté.**

PHARMACEUTICAL FORM: set of bottles in a package of 1500 ml.

1. GEL-EXFOLIATOR

The gel contains alpha-hydroxy acids, which contribute to the mild exfoliation of cells from the skin's surface and penetration of active ingredients into the dermis. Created for the first phase of the non-invasive of carboxytherapy.

APPLICATION: apply gel-exfoliator to cleansed skin. Leave for 5 minutes.

INGREDIENTS: Water (Aqua), Glycerin, Glycolic Acid, Carbomer, Lactic Acid, Ascorbic Acid (Vitamin C), Citric Acid, Perfume.

Not a medicinal product.

PHARMACEUTICAL FORM: vial 500 ml.

2. GEL-ACTIVATOR

Gel activator provides the Bohr effect (increase oxygen uptake of the skin due to separation of carbon dioxide and water. Established for carrying out the second phase of the non-invasive of carboxytherapy. Improves blood circulation in capillaries, reduces swelling. Improves the skin's ability to absorb and transport the useful components.

APPLICATION: apply liberally the gel-activator gel-exfoliator for 20 minutes. After applying the expected slight burning sensation. Thoroughly rinse with water.

INGREDIENTS: Water (Aqua), Tylose, Sodium Hydrocarbonate, Nipaguard™ CMB.

Not a medicinal product.

PHARMACEUTICAL FORM: vial 500 ml.

3. SOOTHING GEL

Soothing gel to complete non-invasive of carboxytherapy. Reinforces the effect of the gel-exfoliator and gel-activator. The active components in the final stage of the procedure deeply penetrate the skin. Aloe extract, hyaluronic acid soothe and hydrate the skin. Collagen and complex vitamins help to increase elasticity of the skin, nourish it. The complex components reduce reddening, stimulate the regeneration of skin cells and production of extracellular matrix.

APPLICATION: apply the gel on cleansed skin. Leave for 20 minutes. Thoroughly rinse with water. To complete the procedure cream according to skin type.

INGREDIENTS: Sodium Alginate, Water (Aqua), Glycerin, Soluble Collagen (Desamidocollagen), Sodium Hyaluronate, Aloe Vera Extract, Allantoin, Dimethyl Sulfone, PEG-40 Hydrogenated Castor Oil, Retinol (Vitamin A), Tocopheryl Acetate (Vitamin E), Linoleic Acid (Vitamin F), Urea, Phenonip®, Perfume.

Not a medicinal product.

PHARMACEUTICAL FORM: vial 500 ml.

HYDROXY THERAPY ACTIVE

Hydroxytherapy saturates the skin with oxygen and provides long-term skin hydration, promotes cell renewal and helps to restore and maintain the natural protective barrier. The components of the product stimulate the production of collagen and elastin, increase skin turgor, and reduce the appearance of photoaging and scars.

Our skin is provided with a thick and developed capillary system. One of the pronounced effects of hydroxytherapy is the effect of peripheral vasodilation, due to which the capillary network and cells of the epidermis are saturated with oxygen, which leads to cleansing and rejuvenation of the skin.

CONTRAINDICATIONS: pregnancy and lactation, herpes, skin lesions, dermatological diseases, acute inflammation. Before the procedure, test for an allergic reaction.

For professional use only. It is allowed to use at any time of the year.

APPLICATION: course of 5-10 procedures once a week. Then the maintenance procedure once a month. **The set is enough for 15 procedures.**

PRECAUTIONS FOR USE: after application, it is recommended to refrain from sunbathing and use products with a high level of protection against UV rays from 25+ to 50+ from The Lab Beauty brand.

PHARMACEUTICAL FORM: 450 ml.

1. GEL CATALYST

Gel contains alpha-hydroxy acids, which promote soft exfoliation of cells from the surface of the epidermis and the penetration of active components into the dermis. Created for the first phase of injection-free hydroxytherapy. Contains an active complex that normalizes regeneration processes, improves blood circulation and accelerates the elimination of toxins from the skin, prepares the skin for application of the ionizing gel.

APPLICATION: apply the gel catalyst on cleansed skin. Leave for 5 minutes.

INGREDIENTS: Water (Aqua), Glycerin, Glycolic Acid, Carbomer, Lactic Acid, Ascorbic Acid (Vitamin C), Citric Acid, Perfume.

Not a medicinal product.

PHARMACEUTICAL FORM: 150 ml.

2. IONIZING GEL

After applying the ionizing gel, the process of active oxygen evolution is started. Due to this, cell oxygenation is enhanced, and toxins are intensively removed from the skin. Helps to improve collagen synthesis, provides energy release for efficient transport of oxygen in the upper layer of the epidermis, whitens the skin. The gel is designed for the second phase of non-injection hydroxytherapy.

APPLICATION: thickly apply the ionizing gel on the gel catalyst for 15 minutes.

INGREDIENTS: Water (Aqua), Tylose, Sodium Hydrocarbonate, Nipaguard™ CMB, Vitamin K.

Not a medicinal product.

PHARMACEUTICAL FORM: 150 ml.

3. ANTIOXIDANT GEL

Antioxidant gel for the completion of the non-injection hydroxytherapy procedure consolidates the effect launched by the gel catalyst and ionizing gel. The active ingredients at the final stage of the procedure penetrate deep into the skin. Aloe extract and hyaluronic acid soothe and moisturize the skin. Collagen and complex of vitamins help to increase the elasticity of the skin, nourish it. Together, the components reduce erythema, stimulate the regeneration of skin cells and the production of the extracellular matrix. Suppresses the active process launched by the ionizing gel.

APPLICATION: apply the gel on cleansed skin. Leave for 20 minutes. Rinse thoroughly with water. Complete the procedure with Bioprotector® cream.

INGREDIENTS: Sodium Alginate, Water (Aqua), Glycerin, Soluble Collagen (Desamidocollagen), Sodium Hyaluronate, Aloe Vera Extract, Allantoin, Dimethyl Sulfone, PEG-40 Hydrogenated Castor Oil, Retinol (Vitamin A), Tocopheryl Acetate (Vitamin E), Linoleic Acid (Vitamin F), Urea, Phenonip®, Perfume.

Not a medicinal product.

PHARMACEUTICAL FORM: 150 ml.

SkinTER® Ultra K₁O₂

Multi-stage (4-phase) procedure is an alternative non-invasive mesotherapy for active skin regeneration with the instant long-lasting tightening effect.

Due to the complex effect of the components of the procedure, the following occurs:

- exfoliation of the horny layer;
- opening of ways for the access of active substances of the complex formula of the procedure;
- alignment of skin relief;
- narrowing of pores and normalization of skin glands;
- improving complexion;
- acceleration of the processes of renewal of the epidermis and cell division of the basal layer of the skin;
- whitening of hyperpigmentation and inhibition of melanocyte synthesis.

With a step-by-step application through the interaction of fruit alpha-hydroxy acids, organic, inorganic and peroxide components, an active stimulation of metabolism is carried out: saturation of the extracellular matrix and skin cells with oxygen and carbon dioxide, stimulation of cell renewal, the production of collagen and elastin, lighting of pigmented skin areas and narrowing of pores. By increasing blood circulation in the skin, microcirculation and capillary strengthening are improved, reflex improvement of muscle tone is stimulated, and ptosis of the face oval is tightened. Nourishing and collagen-containing components have a calming and anti-inflammatory effect, consolidate the effect of hydration and filling of the skin, even out the relief of the skin, eliminate wrinkles and manifestations of sagging skin.

APPLICATION: apply sequentially No. 1, No. 2, No. 3, No. 4 with the interval of 5 minutes in a layer of 2-3 mm, evenly distributed with cosmetic tools and mixing the layers with each other, on cleansed skin and / or body. After 15 minutes, rinse the last component of the procedure thoroughly with water. Finish the procedure by applying a cream according to the skin type with SPF protection of at least 25 or Bioprotector® cream.

To achieve the maximum rejuvenating effect, a course of up to 10 procedures is recommended 1 time per week in combination with facial massage. Maintenance procedure once a month.

PRECAUTIONS FOR USE: for professional use only. After application, it is recommended to refrain from sunbathing, solarium and use UV protection.

CONTRAINDICATIONS: pregnancy and lactation, herpes, skin lesions, dermatological diseases, acute inflammation. Before the procedure, test for an allergic reaction. Do not use on persons with skin hypersensitivity.

PHARMACEUTICAL FORM: set of sachets in a package of 200 ml (designed for 5 procedures. It is recommended for 1 procedure to use 1 sachet (10 ml) of each number according to the procedure protocol) and a set of bottles in a package of 1000 ml.

1. GEL - AHA MULTI STIMULANT (ACID STIMULANT)

Created for the 1st phase of the procedure - superficial mild alpha-hydroxy acid peeling, peeling with the aim of exfoliating the horny layer, stimulating of the increase of blood circulation and opening pathways for the access of active substances.

APPLICATION: apply gel No. 1 with a layer of 2-3 mm, evenly spreading with the help of cosmetic tools on cleansed skin of the face and / or body. Leave for 5 minutes.

INGREDIENTS: Alpha Complex Multi-Fruit System.

Not a medicinal product.

PHARMACEUTICAL FORM: sachet 10 ml or vial 250 ml.

2. GEL - AHA DEACTIVATOR

Created to deactivate the gel No. 1. Gel No. 2 neutralizes AHA acids, and saturates the intercellular space of the skin with carbon dioxide, providing increased blood circulation and absorption of active substances.

APPLICATION: apply gel No. 2 with a layer of 2-3 mm on layer No. 1, evenly distributing it with the help of cosmetic tools. Leave for 5 minutes..

INGREDIENTS: Complex Acid Deactivator.

Not a medicinal product.

PHARMACEUTICAL FORM: sachet 10 ml or vial 250 ml.

3. GEL - OXYGENATOR

Created to enhance the action of the gel No. 2. Gel No. 3 eliminates hypoxia, improves lymphatic drainage of the skin, saturates with oxygen, providing improved metabolism of skin and subcutaneous fat. Helps enhance collagen synthesis, whitens the skin.

APPLICATION: apply gel No. 3 with a layer of 2-3 mm on layer No. 1 and No. 2, evenly distributing it with the help of cosmetic tools. Leave for 5 minutes..

INGREDIENTS: Oxygengel.

Not a medicinal product.

PHARMACEUTICAL FORM: sachet 10 ml or vial 250 ml.

4. GEL - COLLAGEN REGENERAN

Created to complete a complex procedure - has a calming effect, saturates with collagen and hyaluronic acid, fortifies and strengthens the skin filling effect.

APPLICATION: apply gel No. 4 with a layer of 2-3 mm, on layers No. 1, No. 2 and No. 3, evenly distributing it with the help of cosmetic tools. Leave for 15 minutes. Rinse thoroughly with water. Finish the procedure by applying a cream according to the skin type with SPF protection of at least 25.

INGREDIENTS: Regenerating Vitamin Collagen Gel.

Not a medicinal product.

PHARMACEUTICAL FORM: sachet 10 ml or vial 250 ml.

LINE OF COSMETICS FOR
PROFFESIONAL AND
HOME USE

REGENERATING FLUID pH 5,5

Cosmeceutical product based on natural pure plant oils and extracts. High concentration of active substances (polyunsaturated fatty acids, flavonoids and vitamins A, E and K) allows recovering skin after any mechanical, chemical or photo damage; it is designated for home care after permanent makeup procedure and tattooing (it has no effect on pigments), as well as after laser or photo epilation.

Due to its light and airy structure, the fluid absorbs quickly leaving no oily sheen.

APPLICATION: apply according to procedure protocol. Designated for home use in case of highly photo-damaged skin.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 50 ml.

INGREDIENTS: Water (Aqua), CO₂ Extracts Tilia Cordata Mill, Centaurea Cyanus, Ginkgo Biloba, Silybum Marianum, Artemisia Capillaris, Vitis Vinifera Seed, Betula Pendula, Calophyllum Inophyllum Oil, Nigella Sativa Seed Oil, Stearic Acid, Glyceryl Monostearate (Distilled), Lanolin, Propylene Glycol, Glyceryl Monostearate, Cetearyl Alcohol, Phenonip®.

Not a medicinal product.

Silybum Marianum	Has strong healing properties
Calophyllum Inophyllum Oil	Has powerful regenerative effect
Betula Pendula	Has antiseptic effect
Vitis Vinifera Seed	Has antioxidant effect
Artemisia Capillaris	Synergy of antiseptic and antibacterial effect

EYE AREA SMOOTHING BIOPROTECTOR® SERUM pH 5,5

Soft hypoallergenic moisturizer without dyes and perfumes is specially developed for delicate and sensitive eye area skin. Contributes to evening of skin relief and reducing puffiness. The serum stimulates regeneration of tissues.

Skin is rejuvenated; it becomes more elastic due to active synthesis of hyaluronic acid by fibroblasts.

APPLICATION: apply 1-2 times daily on skin around eyes.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 15 or 50 ml.

INGREDIENTS: Water (Aqua), Glycerin, Propylene Glycol, PEG-7 Glyceryl Cocoate, Pisum Sativum (Pea) Extract (and) Sclerotium Gum, Carbomer, Allantoin, Sodium Hyaluronate, Bidens Tripartita Extract, Calendula Officinalis Flower Extract, Chamomilla Recutita (Matricaria) Flower Extract, Coffea Arabica Seed Extract, Hypericum Perforatum Extract, Salvia Officinalis Extract, Phenonip, Triethanolamine.

Not a medicinal product.

Bidens Tripartita Extract	Softens skin, reduces irritation
Calendula Officinalis Flower Extract	Antiseptic, germicidal, calming effect
Chamomilla Recutita (Matricaria) Flower Extract	Reduces skin irritation and softens it
Coffea Arabica Seed Extract	Antioxidant and rejuvenating effect. Tones skin. The component is a natural UV filter
Hypericum Perforatum Extract	Has astringent properties, stimulates microcirculation, tones skin
Salvia Officinalis Extract	Has protective and rejuvenating effect
Pisum Sativum (Pea) Extract	Increase skin elasticity, gives skin "radiance" and "inner glow"
Glycerin	Moisturizes and softens skin
Allantoin	Skin softening
Sodium Hyaluronate	Powerful moisturizer

MIMIC WRINKLES SMOOTHING SYN-AKE SERUM pH 5,5

The serum contains hyaluronic acid and viper venom tripeptide (SYN-AKE) – a botulin-like component that affects nerve endings and prevents recovery of mimic hyperactivity. It slows down nerve impulse conduction and thereby relaxes the muscle.

Can be combined with injections of hyaluronic acid (for more pronounced effect).

APPLICATION: apply on previously cleansed skin in the area of "crow's feet" at the outer eye corner. Due to the cumulative effect, the serum is use in courses. The course duration shall be determined individually in each case by a beautician.

Recommended course for severe wrinkles: apply the serum once a day during 3 weeks, applying a small amount of serum with soft patting movements, spreading it in the area of "crow's feet"; then take a week break.

Recommended course for mild wrinkles: apply the serum once a day during 2 weeks; then take a week break. Do not use serum during pregnancy and lactation period.

Do not increase the course duration for more than 40 days!

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 15 ml.

INGREDIENTS: Water(Aqua), Hyaluronic Acid, Glycerin (and) Aqua (and) Dipeptide Diaminobutyroyl Benzylamide Diacetate, Salvia Officinalis Extract, Matricaria Chamomilla Flower Extract, Bidens Tripartita Extract, Vitis Vinifera Seed Extract, Calendula Officinalis Flower Extract, Chamerion Angustifolium Extract, Allantoin, Glycerin, Propylene Glycol, Carbomer, Triethanolamin, PEG-7 Glyceryl Cocoate, Phenonip.

Not a medicinal product.

VITAMIN C SERUM pH 5,5

The serum contains lipid soluble form of vitamin C, which allows it to penetrate deep layers of skin. Vitamin C is a powerful antioxidant, which reduces pigmentation. The serum also contains vitamins A, E, F, hyaluronic acid and CO₂ bearberry extract.

These active complex components ensure high efficiency of this serum.

APPLICATION: apply on face, neck and decollate twice a day. Allow absorbing; apply cream or phytoegel.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Water (Aqua), Ascorbyl Palmitate (Vitamin C Palmitate), Glycerin, Propylene Glycol, Cellulose Gum, PEG-40 Hydrogenated Castor Oil, Retinyl Palmitate (Vitamin A), Tocopheryl Acetate (Vitamin E), Linolenic Acid (Vitamin F), Arctostaphylos Uva-Ursi Leaf Extract, Hyaluronic Acid, Nipaguard.

Not a medicinal product.

Ascorbyl Palmitate (Vitamin C Palmitate)	Powerful antioxidant that refreshes and rejuvenates skin, evens skin tone and reduces pigmentation, soothes sensitive skin prone to irritation and inflammation
Retinyl Palmitate (Vitamin A)	Strong antioxidant, which nourishes skin
Tocopheryl Acetate (Vitamin E)	Has rejuvenating, antioxidant, anti-inflammatory effect
Linolenic Acid (Vitamin F)	Has regenerating and calming effect and anti-inflammatory properties. Improves metabolism in epidermal tissues
Hyaluronic Acid	Powerful moisturizer
Arctostaphylos Uva-Ursi leaf extract	Has anti-inflammatory, purifying, whitening effect
Glycerin	Moisturizes and softens skin

SERUM WITH HYALURONIC ACID pH 5,5

Serum with low molecular weight hyaluronic acid has powerful moisturizing, smoothing and rejuvenating properties due to its ability to penetrate into deeper skin layers. The serum stimulates synthesis of collagen and elastin and prevents evaporation of moisture from deeper skin layers.

Hyaluronic acid is the main component of extracellular matrix.

APPLICATION: apply on face, neck and decollate twice a day. Allow absorbing; apply cream or phytoegel.

WARNING: do not use if the skin is hypersensitive to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Water (Aqua), Hyaluronic Acid, Propylene Glycol, Glycerin, Carbomer, Phenoxyethanol.

Not a medicinal product.

Hyaluronic Acid	Powerful moisturizer
Glycerin	Moisturizes and softens skin

SERUM FOR PROBLEM SKIN pH 5,0

When applied topically to the skin, the serum has an antibacterial, anti-anxiety and depigmenting effect.

The active composition contains components of natural origin: sodium salts of lactic acid esters - lauric fatty acid and caprylic acid, due to which it has high activity against various types of microorganisms. Effective against propionic bacteria that cause acne.

APPLICATION: apply a small amount 2 times a day in the morning and evening on cleansed skin, avoiding the area around the eyes, or spot on problem areas. After 10-15 minutes, if necessary, apply a cream (gel or other agent) according to skin type. For maximum results, it is recommended to use the serum in complex care. The recommended course of application is 3-4 weeks. Repeat the course in 1-2 months.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Agua, Propylene Glycol, Glycerin, Sodium Caproyl/Lauroyl Lactylate, Carbopol, Cyclopentasiloxane, D-Panthenol, Bídens Tripartita Extract, Chamomilla Recutita Flower Extract, Calendula Officinalis Extract, Urtica Dioica Extract, Clary Sage (Salvia sclarea) Essential Oil, Tea Tree (Melaleuca alternifolia) Essential Oil, Bergamote Essential Oil, Retinyl Palmitate (and) Glycine max Seed Oil, Tocopheryl Acetate, Perfume, Phenonip, Triethanolamine.

Not a medicinal product.

FIRMING SERUM pH 5,5

Active serum formula provides its working in two directions: the top layer is softly exfoliated, and skin is actively hydrated. Skin tightness is improved, number of wrinkles is reduced and skin becomes moisturized. The activity of fibroblasts is increased.

Dermis thickness significantly increases due to activation of collagen and elastin production.

APPLICATION: pply on face, neck and decollate twice a day. Allow absorbing; apply cream or phytogel.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Water (Aqua), Glycolic Acid, Glycerin, Propylene Glycol, Cellulose Gum, Hyaluronic Acid, Nipaguard, Disodium EDTA.

Not a medicinal product.

Glycolic Acid	Has anti-aging effect, removes the upper keratinous layer
Hyaluronic Acid	Powerful moisturizer

MULTIVITAMIN SERUM pH 5,5

Concentrated serum contains vitamins A, E and F to strengthen skin and seaweed extract, rich in iodine, polysaccharides and biologically active substances. The serum stimulates production of collagen and other components of intercellular dermis substance.

Coenzyme Q10 protects skin from negative environmental effects and prevents premature aging.

APPLICATION: apply on face, neck and decollate twice a day. Allow absorbing; apply cream or phytogel.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Water (Aqua), Retinyl Palmitate (Vitamin A), Tocopheryl Acetate (Vitamin E), Linolenic Acid (Vitamin F), Glycerin, Propylene Glycol, PEG-7 Glyceryl Cocoate, PEG-40 Hydrogenated Castor Oil, Hyaluronic Acid, Ulva Lactuca Extract, Carbomer, Coenzyme Q10, Nipaguard.

Not a medicinal product.

Hyaluronic Acid	Powerful moisturizer
Retinyl Palmitate (Vitamin A)	Powerful moisturizer
Tocopheryl Acetate (Vitamin E)	Has rejuvenating, antioxidant, anti-inflammatory effect
Linolenic Acid (Vitamin F)	Has regenerating and calming effect and anti-inflammatory properties Improves metabolism in epidermal tissues
Coenzyme Q10	Has anti-aging, antioxidant effect
Ulva Lactuca extract	Improves skin elasticity and tonicity, stimulates collagen synthesis, has lifting effect
Glycerin	Moisturizes and softens skin

SERUM WITH COLLAGEN pH 5,5

Serum with collagen is a product with a high concentration of active ingredients. With regular use, it restructures the extracellular matrix and activates 14 genes responsible for the synthesis and transport of collagen, elastin and hyaluronic acid, as well as for the mobility of fibroblasts.

It evens out skin relief, provides hydration and creates a firming effect. Models the «triangle of beauty» - the oval of the face becomes elastic and the nasolabial folds are reduced.

APPLICATION: apply a small amount of serum on clean skin, including the area around the eyes, evenly distribute in circular massaging movements along the cosmetic lines. Wait until completely absorbed, apply cream according to skin type. Apply as needed. Suitable for daily use. For maximum effect, use in combination with the lifting massage.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Agua, Propylene Glycol, Glycerin, Hydrolyzed Collagen, Glycerin (and) Water (and) Undaria pinnatifida extract, Sodium Hyaluronate, Carbopol, D-Panthenol, Aqua (Water) (and) Butylene Glycol (and) PEG-40 Hydrogenated Castor Oil (and) Linoleic Acid (and) Linolenic Acid (and) Tocopheryl Acetate (and) Retinyl Palmitate (and) Glycine Soya (Soybean) Oil (and) Potassium Sorbate (and) Sodium Benzoate (and) Tocopherol, Perfume, Phenonip.

Not a medicinal product.

Brown algae extract, low molecular weight marine collagen, low molecular weight hyaluronic acid	Skin revitalization
D-panthenol (provitamin B5) and a complex of vitamins AEF	Enhance the formation of collagen and elastane, have a nourishing and regenerating effect, and help to activate the process of cell renewal

WHITENING SERUM pH 5,5

Whitening serum is a concentrated product to whiten epidermal hyperpigmentation, freckles, postacne scars, age pigmentation, including melasma and chloasma.

Evens skin tone, provides hydration and creates a whitening effect.

Arbutin and Dermawhite™ WF is a synergistic powerful melanogenesis suppressing complex with papaya, guava and saxifrage extracts traditionally used in Chinese medicine to achieve enhanced whitening effects. Has a fast effectiveness, which is proven after 2 weeks of use. This figure is three times higher than that of kojic acid.

APPLICATION: apply a small amount of serum on clean skin, evenly distribute in circular massage movements along the cosmetic lines. Wait for complete absorption, apply the cream on the skin type, during the day with SPF protection not less than 25. Apply 2 times a day to achieve the desired effect.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Agua, Propylene Glycol, Arbutin, Sodium Hyaluronate, D-Panthenol, Water (and) Tartaric Acid (and) Disodium EDTA (and) Sodium Sulfite (and) Sodium Metabisulfite (and) Glycerin (and) Butylene Glycol (and) Saxifraga Sarmientosa Extract (and) Carica Papaya (Papaya) Fruit Extract (and) Psidium Guajava (Guava) Fruit Extract, Butylene Glycol (and) PEG-40 Hydrogenated Castor Oil (and) Linoleic Acid (and) Linolenic Acid (and) Tocopheryl Acetate (and) Retinyl Palmitate (and) Glycine Soya (Soybean) Oil (and) Potassium Sorbate (and) Sodium Benzoate (and) Tocopherol, Carbopol, Perfume, Phenonip.

Not a medicinal product.

Arbutin and Dermawhite™ WF Complex with Papaya, Guava and Saxifrage Extracts	Blocks the tyrosinase enzyme, suppressing melanin synthesis by 90%. Provides skin whitening and helps reduce skin pigmentation in dark phototypes
D-panthenol (provitamin B5) and a complex of vitamins AEF	They have nourishing and regenerating effect, help to activate the process of cell renewal, stimulate the formation of collagen and elastin

LINE OF COSMETICS FOR
HOME USE

**DAY CREAM FOR ALL SKIN TYPES pH 5,5,
SPF - 15**

Light day cream for all skin types moisturizes, evens skin tone and has protective effect. Macadamia oil is a natural antioxidant, which protects against UV rays. The cream contains monounsaturated palmitic acid, which is one of the building blocks of cell membranes. Ginger extract tones skin and gives it firm structure. Grape seed extract removes toxins and stimulates collagen production. Bearberry extract evens skin tone. The extracts complex activates natural cellular immunity.

Application: apply day cream on serum selected depending on skin type, wait until absorbed.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Distilled Mono Glyceride, Silybum Marianum Oil, Macadamia Oil, Stearic Acid, Propylene Glycol, Cetearyl Alcohol, Glyceryl Monostearate, Glycerin, Lanolin, Daucus Sativus Seed Extract, Zingiber Officinale (Ginger) Root Extract, Vitis Vinifera Seed Extract, Allantoin, Panthenol, Benzophenon-3, Triethanolamine, Phenonip.

Not a medicinal product.

NOURISHING NIGHT CREAM pH 5,5

Nourishing night cream restores epidermal barrier and neutralizes the effect of stress on skin. Macadamia oil nourishes and has antioxidant effect. Milk thistle oil softens and moisturizes. Shea butter regenerates damaged skin and is involved in cellular metabolism. Nourishing night cream restores epidermal barrier and neutralizes the effect of stress on skin. Macadamia oil nourishes and has antioxidant effect. Milk thistle oil softens and moisturizes. Shea butter regenerates damaged skin and is involved in cellular metabolism.

Application: apply on clean skin with light massage movements.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Butyrospermum Parkii Oil (Shea-butter), Macadamia Oil, Silybum Marianum Oil, Cetearyl Alcohol, Distilled Monoglyceride, Stearic Acid, Propylene Glycol, Glyceryl Monostearate, Glycerin, PEG-40 Hydrogenated Castor Oil, Lanolin, Urtica Dioica Extract, Zingiber Officinale Root Extract, Fructus Rosae Extract, Lavandula Angustifolia Extract, Sodium Hyaluronat, Triethanolamine, Phenonip.

Not a medicinal product.

PHYTOREGENERANT pH 5,5

Phyto regenerator is a bioactive cream with emollients for dry and irritated skin, which restores hydrolipid balance and accelerates regeneration processes after aggressive cosmetic procedures, including peels. Active composition - D-panthenol, bisabolol, allantoin, shea butter and flaxseed oil nourishes and soothes. Low molecular weight hyaluronic acid and organic sulfur moisturize, strengthen skin turgor, stimulate the formation of new support structures of the skin and renewal of the top layers. Relevant for the protection of dry and sensitive skin in winter, windy weather, as well as sun protection product with SPF 35.

Application: apply a small amount of cream on clean skin, including the area around the eyes, evenly distributed in a circular massage motion along the cosmetic lines. Wait for complete absorption. Apply as needed 1-2 times a day. Suitable for daily use.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Agua, D-Panthenol, Cyclopentasiloxane, Ethylhexyl Metoxycinnamate, Cetearyl Oliviate (and) Sorbitan Oliviate, Cetylstearyl Alcohol, Methylsulfonylmethane, Zinc Oxide, Shea Butter, Linseed Oil, Propylene Glycol, Glycerin, Stearic Acid, PEG-40 Hydrogenated Castor Oil, Castor Oil, Sodium Hyaluronate, Bi-sabolol, Allantoin, Bídens Tripartíta Extract, Urticae Extract, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, Perfume, Essential Oil Origanum Vulgare.

Not a medicinal product.

BIOPROTEKTOR® CREAM pH 5,5, SPF-25

Bioprotektor® cream is an innovative product that protects skin from UV radiation and other external influences. It creates a light protective film on skin, which is active during the whole day. The cream protects skin from photoaging, improves its elasticity and evens skin tone.

Application: apply before going out and applying makeup.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Silybum Marianum Oil, Calophyllum Inophyllum (Tamanu) Oil, Nigella Sativa Seed Oil, Chamomilla Recutita (Matricaria) Flower Extract, Achillea Millefolium Extract, Hypericum Perforatum Extract, Distilled Monoglyceride, Glycerin, Propylene Glycol, Lanolin, Cetearyl Alcohol, Stearic Acid, Glyceryl Monostearate, Benzophenone, Zinc Oxide, Titanium Dioxide, Phenonip, Triethanolamine.

Not a medicinal product.

REJUVENATING CREAM WITH SNAIL MUCIN pH 5,5

The cream formula includes a complex of moisturizing oils and seaweed and has incredible effect on skin. The product shall be used for slack skin with signs of stress and dehydration. Kelp nourishes, moisturizes and tones. Seaweeds regenerate skin and improve microcirculation. Oil complex provides anti-inflammatory effect and normalizes the cellular metabolism.

Application: apply to a clean face, twice a day.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Aqua, Snail Secretion Filtrate, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Macadamia Ternifolia Seed Oil, Glyceryl Monostearate, Cetearyl Alcohol, PEG-40 Hydrogenated Castor Oil, PEG-7 Glyceryl Cocoate, Lanolin, Stearic Acid, Dimethicone, Glycerin, Propylene Glycol, Carbomer, Allantoin, Phenonip, Lactic Acid, Hyaluronic Acid, Coenzyme Q10, Limonium Carolinianum, Tocopheryl Acetate (Vitamin E), Retinyl Palmitate (Vitamin A), Linoleic Acid, Linolenic Acid (Vitamin F), Disodium EDTA, Perfume.

Not a medicinal product.

MOISTURIZING FACE CREAM WITH SEAWEED pH 5,5

The cream formula includes a complex of moisturizing oils and seaweed and has incredible effect on skin. The product shall be used for slack skin with signs of stress and dehydration. Kelp nourishes, moisturizes and tones. Seaweeds regenerate skin and improve microcirculation. Oil complex provides anti-inflammatory effect and normalizes the cellular metabolism.

Application: apply to a clean face, twice a day.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Stearic Acid, Glyceryl Monostearate, Butyrospermum Parkii Oil (Shea Butter), Prunus Amygdalus Dulcis (Sweet Almond) Oil, Silybum Marianum Seed Oil, Lanolin, Glycerin, Lactic Acid, Urea, Laminaria, Ulva Lactuca, Cetyl Alcohol, PEG-40 Hydrogenated Castor Oil, Propylene Glycol, Dimethicone, Betaine, Carbomer, Allantoin, Phenonip, Perfume.

Not a medicinal product.

CLEANSING GEL pH 5,5

Gel perfectly removes dead epidermis cells; the skin surface becomes more even and smooth. Gel perfectly removes dead epidermis cells; the skin surface becomes more even and smooth. It also refreshes and strengthens loose, dehydrated skin, improves its elasticity and tone, cleanses and tightens pores, adjusts the pH of the skin. The gel is suitable for all skin types, including sensitive skin.

Application: apply small amount of gel on wet face, mix it with water to foam, gently massage (also, the gel can be mixed with water on wet palms with further application of the obtained foam on face), then rinse with warm water, avoiding contact with eyes.

Warning: do not use in case of hypersensitivity to certain components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

Pharmaceutical form: 150 ml.

Ingredients: Water (Aqua), Cocamidopropyl Betaine, Glycerin, Sodium Laurethsulfate, PEG-7 Glyceryl Cocoate, Sodium Chloride, Perfume, Allantoin, Lactic Acid, Tea Tree Oil, Nipaguard CMB.

Not a medicinal product.

TONIC pH 5,5

The tonic gently cleans and moisturizes skin, restores natural hydrobalance and improves skin micropattern, gives it freshness, softness and healthy radiance, promotes tightening, accelerates regeneration, regulates lipid balance and helps to restore skin structure, saturate it with nutrients, making it more soft and velvety. The lotion also normalizes skin pH.

Application: wipe face with a cotton pad soaked in tonic. The lotion can be applied both after cleansing milk, gel and scrub before applying cream or serum (at home) and after masks before applying cream (salon procedures).

Warning: do not use in case of hypersensitivity to certain components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

Pharmaceutical form: 150 ml.

Ingredients: Water (Aqua), Propylene Glycol, Carbamide (Urea), Polyquaternium-7, PEG-7 Glyceryl Cocoate, PEG-40 Hydrogenated Castor Oil, Allantoin, Panthenol, Lactic Acid, Ascorbic Acid, Urtica Dioica Extract, Arctium Lappa Extract, Juniperus Communis Extract, Mentha Piperita Extract, Artemisia Absinthium Extract, Rosmarinus Officinalis Extract, Chamomilla Recutita (Matricaria) Flower Extract, Thymus Vulgaris Extract, Salvia Officinalis Extract, Mentha Piperita Oil, Disodium EDTA, Perfume, Nipaguard CMB.

Not a medicinal product.

CLEANSING MILK pH 5,5

Milk with a liquid texture efficiently removes make-up (including eye make-up) and dissolves skin surface impurities. The specificity of this product is that it does not only remove impurities, but also moisturizes and nourishes the skin. Sweet almond oil contained in the milk makes it a perfect moisturizer, which helps to protect skin from drying, preventing possible flaking.

Application: apply milk on the face using cotton pads. Measure a small amount from the bottle onto a cotton pad and distribute it on the face along massage lines. Gently remove the milk, washing it together make-up and impurities using a cotton pad. Repeat the procedure if necessary. After that, wash the residues with warm water or tonic lotion.

Warning: do not use in case of hypersensitivity to certain components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

Pharmaceutical form: 150 ml.

Ingredients: ater (Aqua), Sweet Almond Oil, PEG-7 Glyceryl Cocoate, Cocamidopropyl Betaine, Propylene Glycol, Steareth-20, Cetearyl Alcohol, Isopropyl Myristate, Cetearyl Oliviate (and) Sorbitan Oliviate, PEG-40 Hydrogenated Castor Oil, Glyceryl Monostearate, Dimethicone, Allantoin, Disodium EDTA, Perfume, Phenonip.

Not a medicinal product.

COMEDONES AND ACNE CONTROLLING PHYTOGEL pH 5,5

The phyto-gel formula includes active herbal components that reduce the activation of coccal flora, have keratoplastic effect and reduce hypersecretion of sebaceous glands. The phyto-gel has active effect on acne areas (papules, pustules, comedones, hyperkeratosis) and also has positive effect on skin with pitted acne scars (congestions, atrophic and hypertrophic scars). Does not make skin dry.

Application: during ultrasonic phonophoresis, iontophoresis or microcurrent treatment apply phyto-gel all over the face evenly, or apply it according to procedure protocols.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Propylene Glycol, PEG-40 Hydrogenated Castor Oil, Calendula Officinalis Flower Extract, Achillea Millefolium Extract, Vitis Vinifera Seed Extract, Artemisia Absinthium Extract, Humulus Lupulus Extract, Aesculus Hippocastanum Seed Extract, Allantoin, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

WHITENING PHYTOGEL pH 5,5

Modern and safe advanced product whitens pigmentation regardless of its depth and causes. Due to active herbal components, it significantly slows skin synthesis of melanin. The process of epidermis cell renewal also accelerates, thereby excess melanin is removed from skin; it becomes smooth, elastic and white. The phyto-gel formula includes active moisturizing, emollient and protective components. The product is effective against pigment spots not only on face, but on body as well.

Application: during ultrasonic phonophoresis apply phyto-gel all over the face or on the pigmented area. Non-machine cosmetology: apply under a film or alginate.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Glycerin, Aqua (and) Amorphophallus Konjac Root Extract, Papain, Propylene Glycol, PEG-7 Glyceryl Cocoat, Allantoin, Artemisia Absinthium Extract, Humulus Lupulus Extract, Rosa Canina Fruit Extract, Chamomilla Recutita Flower Extract, Betula Pendula Extract, Arctostaphylos Uva-Ursi Extract, Glycyrrhiza Glabra Root Extract, Sodium Hyaluronate, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

EPITELISANT® CREAM pH 6,2

Revitalizing therapeutic cream for damaged, sensitive skin. The cream may be used for injuries associated with damage of hydrolipidic film or dermatological diseases involving violation of integrity of epidermal barrier. Immediate application of Epitelisant® cream after performing cosmetic procedures helps to form a thin protective layer on skin, thereby significantly reducing the probability of development of infectious complications. The effect is similar to wet sterile bandage.

Application: apply even layer of mask on face with massaging movements at the end of procedure.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Silybum Marianum Oil, Artemisia Absinthium Extract, Chamomilla Recutita Flower Extract, Calophyllum Inophyllum Oil, Achillea Millefolium Extract, Betula Pendula Extract, Hypericum Perforatum Extract, Vitis Vinifera Seed Extract, Glycerin, Triethanolamine, Cetearyl Alcohol, Distilled Monoglyceride, Lanolin, Stearic Acid, Propylene Glycol, Glyceryl Monostearate, Phenonip.

Not a medicinal product.

CREAM FOR OILY AND POROUS SKIN pH 5,5

The cream helps to even the skin texture, making it smooth and velvety. The active ingredients penetrate the deeper skin layers and regulate production of water-lipid mantle. The cream has balanced formula, which allows contracting pores, removing toxins and increasing skin immunity.

Application: apply to a clean face, twice a day.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Macadamia Oil, Daucus Sativus Seed Extract, Chamomilla Recutita Flower Extract, Humulus Lupulus Extract, Arnica Montana Extract, Pelargonium Graveolens Flower Extract, Zingiber Officinale (Ginger) Root Extract, Vitis Vinifera Seed Extract, Distilled Monoglyceride, Allantoin, Panthenol, Triethanolamine, Stearic Acid, Propylene Glycol, Cetearyl Alcohol, Glyceryl Monostearate, Glycerin, Lanolin, Phenonip.

Not a medicinal product.

NOURISHING CREAM pH 5,5

The nourishing cream restores the epidermal barrier and neutralizes the effects of stress on skin. Macadamia oil nourishes and provides antioxidant effect. Milk thistle oil softens and moisturizes. Shea butter regenerates damaged skin and is involved in cellular metabolism. Lavender extract improves the overall cells tonicity and activates intracellular metabolism. Nettle extract strengthens walls of blood vessels and increases activity of collagen fibers.

Application: apply to a clean face, twice a day.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Butyrospermum parkii Oil (Shea Butter), Macadamia Oil, Silybum Marianum Oil, Cetearyl Alcohol, Distilled Monoglyceride, Stearic Acid, Propylene Glycol, Glyceryl Monostearate, Glycerin, PEG-40 Hydrogenated Castor Oil, Lanolin, Urtica Dioica Extract, Zingiber Officinale Root Extract, Fructus Rosae Extract, Lavandula angustifolia Extract, Sodium Hyaluronat, Triethanolamine, Phenonip.

Not a medicinal product.

ANTICOUPEROSE PHYTOGEL pH 5,5

Modern angioprotective agent of plant origin for all skin types with couperosis. The gel strengthens vessel walls, improves their tone, reduces angiaesthesia and protects them against harmful effects of environment. Also has moisturizing and softening effect. At regular use, the gel restores microcirculation, effectively affects blood vessels and removes redness and vascularity spots. Active complex of this phytogel contains vitamin K, which helps strengthening surface capillaries. Also suitable for skin prone to redness due to aggressive weather conditions and extreme temperatures.

Application: apply to a clean face, twice a day.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water (Aqua), Glycerin, Allantoin, Calendula Officinalis Flower Extract, Capsella Bursapastoris Extract, Chamomilla Recutita Flower Extract, Eleutherococcus Senticosus Extract, Rosa Canina Fruit Extract, Urtica Dioica Extract, Sodium Hyaluronate, Propylene Glycol, Carbomer, Triethanolamine, PEG-7 Glyceryl Cocoate, Phenonip.

Not a medicinal product.

BEAUTY TONIC ANTISEPT pH 7,0

Antisept tonic is a cosmetic product without smell and color, which has broad antibacterial spectrum. The composition contains no alcohols or solvents, so it is absolutely safe. It is an advanced antiseptic preparation.

Application: spray on skin from a distance of 20-30 cm. It is recommended to use before and after procedures. Suitable for hands disinfection.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 60 ml.

Ingredients: Water (Aqua), Polyhexamethyleneguanidine Hydrochloride.

Not a medicinal product.

TONIC FOR PROBLEM SKIN pH 3,0

Tonic for the care of problem skin with manifestations of acne and rosacea has antibacterial, anti-acne and sebo regulatory effects. Due to the presence of organic sulfur, glycolic acid, vitamin A, D-panthenol and low molecular weight hyaluronic acid helps to normalize the keratinization of the hair follicle, hydration, slows down the formation of fatty acids that contribute to acne.

Application: apply with a cotton pad 2 times a day in the morning and evening on cleansed skin. After 3-5 minutes, if necessary, apply a cream (gel, etc.) according to the skin type. Apply as needed.

Warning: do not use in case of hypersensitivity to certain components of the composition. . Avoid contact with eyes.

Pharmaceutical form: 150 ml.

Ingredients: Aqua, Methyl Sulphonyl Methane, Propylene Glycol, Aloe Juice, Glycolic Acid, Sodium Hyaluronate, D-Panthenol, Bidens Tripartita Extract, Calendula officinalis Extract, Salvia Officinalis Extract, Butylene Glycol (and) PEG-40 Hydrogenated Castor Oil (and) Linoleic Acid (and) Linolenic Acid (and) Tocopheryl Acetate (and) Retinyl Palmitate (and) Glycine Soya (Soybean) Oil (and) Potassium Sorbate (and) Sodium Benzoate (and) Tocopherol, Metronidazole, Perfume, Phenonip.

Not a medicinal product.

TONIC WITH AHA ACIDS pH 3,5

Constant use of the tonic improves the quality of the skin, thickens the epidermis, and reduces the thickness of the horny layer. Has a mild sebo regulatory effect.

- Lactic, glycolic and mandelic AHA acids - Narrows pores, has an exfoliating and brightening effect.
- Moisturizing complex: low molecular weight hyaluronic acid and Aloe juice - Restores the hydrobalance of the skin, smoothes the microrelief and stimulates the renewal of cells of the deep layers of the epidermis.

Application: soak a cotton pad with a small amount of tonic, apply on clean face skin along cosmetic lines, wait until it dries completely, apply cream according to skin type. Apply 1-2 times a day, preferably in the evening. When used during the day, apply a cream with SPF protection at least 50. Recommended for permanent use for the care of oily and combination skin, as well as a pre-peeling preparation for all skin types.

Warning: do not use in case of hypersensitivity to certain components of the composition. Avoid contact with eyes. In case of contact with eyes, rinse immediately with water.

Pharmaceutical form: 150 ml.

Ingredients: Aqua, Propylene Glycol, Methylsulphonyl Methane, Aloe Barbadensis Leaf Juice, Lactic Acid, Glycolic Acid, Mandelic Acid, Sodium Hyaluronate, D-Panthenol, Allantoin, PEG-40 Hydrogenated Castor Oil, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

TONIK WITH HYALURONIC ACID pH 5,5

Hyaluronic acid tonic is a moisturizing and toning agent with a high concentration of active ingredients: low molecular weight hyaluronic acid, marine collagen, royal orchid extract and stevia extract polysaccharides, which restore the hydrolipid balance and increase turgor of the skin. D-panthenol (provitamin B5) and vitamin complex A, E and F have a nourishing and regenerating effect, promote the activation of cell regeneration. Suitable for dry and sensitive skin.

Application: apply a small amount of tonic on a cotton pad by pressing the dispenser, wipe clean skin along the cosmetic lines, including the area around the eyes. Wait for complete absorption, apply serum and/or cream according to skin type. Suitable for daily use.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 150 ml.

Ingredients: Agua, Propylene Glycol, Methylsulfonylmethane, Royal Orchid Extract, Polysaccharides Stevia Extract, Sodium Hyaluronate, Hydrolyzed Collagen, PEG-40 Hydrogenated Castor Oil, D-Panthenol, Lactic Acid, Aqua (and) Butylene Glycol (and) PEG-40 Hydrogenated Castor Oil (and) Linoleic Acid (and) Linolenic Acid (and) Tocopheryl Acetate (and) Retinyl Palmitate (and) Glycine Soya (Soybean) Oil (and) Potassium Sorbate (and) Sodium Benzoate (and) Tocopherol, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

CREAM WITH COLLAGEN pH 5,5

Cream with collagen is a care product for dry and mature skin. The active composition with low molecular weight marine collagen, hyaluronic acid and natural shea butter restores the hydrolipid barrier, provides nourishment and hydration, evens out the relief, thicken and improves skin elasticity. D-panthenol (provitamin B5) and a complex of vitamins A, E, F have antioxidant effects, stimulate the formation of collagen and elastin, have a nourishing and regenerating effect, promote the activation of cell renewal.

Application: apply a small amount of the cream to clean skin of the face, distribute evenly with circular massage movements along the cosmetic lines. Wait for complete absorption. Apply as needed 1-2 times a day. Suitable for daily use. For maximum effect, use in combination with the lifting massage.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Agua, Cyclopentasiloxane, Propylene Glycol, Glycerin, Cetearyl Olivat (and) Sorbitan Olivat, Isopropyl Myristate, Hydrolyzed Collagen, Shea Butter, Dimeticone, Grape Seed Extract, Cetearth-20, Cetylstearyl Alcohol, Carbamid (Urea), Stearic Acid, Sodium Hyaluronate, D-Panthenol, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Aqua (Water) (and) Butylene Glycol (and) PEG-40 Hydrogenated Castor Oil (and) Linoleic Acid (and) Linolenic Acid (and) Tocopheryl Acetate (and) Retinyl Palmitate (and) Glycine Soya (Soybean) Oil (and) Potassium Sorbate (and) Sodium Benzoate (and) Tocopherol, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben.

Not a medicinal product.

MATTING CREAM pH 5,5 SPF - 15

Matting cream with a pleasant citrus scent and a delicate texture for oily and combination skin evens out the skin's relief, mattifies the skin and tightens pores, normalizes and regulates the sebaceous glands. Active composition of the cream based on bentonite clay, talc and silicon dioxide helps to get rid of greasy shine throughout the day. D-panthenol (provitamin B5) and a complex of vitamins A, E, F have the anti-inflammatory and restorative effect, lactic acid has an exfoliating effect and activates the process of epidermal renewal. Great foundation for makeup. Protects the skin from the sun.

Application: apply the cream in the morning on clean and dry skin.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water, Cyclopentasiloxane, Propylene Glycol, Magnesium Aluminum Silicate, Hydrated Silica, Isopropyl Myristate, PEG - 7 Glyceryl Cocoate, Cetearyl Alcohol, Stearic Acid, Benzophenone-3, Talcum powder, Cetearth-20, Dimethicone, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Ethanolamine, Butylated Hydroxy Anisole, Retinyl Palmitate, Tocopherol, Linoleic Acid, Lactic Acid, Allantoin, D-Panthenol, Aloe Vera Leaf Extract, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben (and) Butylparaben (and) Isobutylparaben, Parfum.

Not a medicinal product.

CLEANSING GEL WITH AHA ACIDS pH 4,0

Cleansing gel for washing with fruit acids gently cleanses, has a seoregulatory and exfoliating effect. The active ingredient - glycolic, lactic and citric acids regulates the activity of skin glands, reduces hyperpigmentation, has the antioxidant effect. Regular use of the gel tightens pores, evens out skin color, brightens and gives the skin the elastic and healthy look. D-panthenol, extracts of calendula and chamomile have anti-inflammatory and bactericidal effects, preventing the manifestations of skin imperfections.

Application:

Warning: do not use in case of hypersensitivity to certain components of the composition and skin damage.

Pharmaceutical form: 150 ml.

Ingredients: Aqua, Coco Glucoside (and) Disodium Laurylsulfosuccinate (and) Glycerin, Cocamidopropyl Betaine, Cocamide DEA, Glycerin, Panthenol, Chamomilla Recutita Flower Extract, Calendula Officinalis Flower Extract, Glycolic Acid, Lactic Acid, Citric Acid, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, Perfume, Disodium EDTA.

Not a medicinal product.

ANTIBACTERIAL FOAM FOR CLEANSING PROBLEM SKIN pH 3,5

Antibacterial foam for cleansing problem skin - the delicate remedy in the form of the gentle foam for cleansing the skin with manifestations of imperfections (acne and comedones). Contains the active antibacterial component with the broad spectrum of action - chlorhexidine and tea tree essential oil, which have the anti-inflammatory effect. Lactic and glycolic acids regulate the sebaceous glands, reduce pigmentation and postacne, brightening the skin. St. John's wort extract, trailers and D-panthenol have the calming effect and eliminate irritation. Daily use of the product provides effective cleansing, accelerates the peeling of keratinized areas and improves the condition and appearance of the skin.

Application: apply the small amount of foam by pressing the dispenser on the sponge or directly on the skin, massage in the circular motion, avoiding the eye area, rinse thoroughly with water until the foam disappears.

Warning: do not use in case of hypersensitivity to certain components of the composition. In case of contact with eyes, rinse immediately with water.

Pharmaceutical form: 150 ml.

Ingredients: Agua, Propylene Glycol, Cocamidopropyl Betain, Lauryl Glucoside, PEG-7 Glyceryl Cocoate, Sodium Cocoamphoacetate, Glycerin, Polyquaternium PQ-7, D-Panthenol, Lactic Acid, Glicolic Acid, Chlorhexidin Bigluconat, Fragrance, Bidens Tripartita Extract, Hypericum Perforatum Extract, Tea Tree Essential Oil, Disodium EDTA.

Not a medicinal product.

ENZYMATIC PEELING pH 5,5

Enzymatic peeling based on enzymes of plant origin - papain, bromelain (in pineapple extract), actinidine (in kiwi extract) has the mild exfoliating effect and, thanks to licorice extract, brightens the skin surface. Mineral microgranules help to get rid of stratum corneum, kaolin adsorbs excess glandular secretions. With regular use, the pores are narrowed, the skin color is improved and the relief is evened out.

Application: apply the product on damp cleansed skin, distribute on cosmetic lines, avoiding the eye area, cover with cling film and leave for 5-10 minutes. Remove the film, moisten, and without pressure massage in the circular motion, rinse thoroughly with warm water. Use 1-2 times a week.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Agua, Aluminum Oxide, Kaolin, Propylene Glycol, Stearic Acid, Glycerin Monostearate, PEG-40 Hydrogenated Castor Oil, Glycerin, Urea, Ceteareth-20, Cetylstearyl Alcohol, Papain, Kiwi Extract, Licorice Extract, Pineapple Extract, D-Panthenol, Fragrance, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Lactic Acid, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, Triethanolamine.

Not a medicinal product.

CREAM SPF 50 MATTING EFFECT pH 5,5

Light day cream with the complex of physical and chemical light filters carefully protects the skin from sunlight, prevents photoaging and mattifies. Active mineral components based on silicon prevent the appearance of oily shine, adsorb skin secretions, even out the relief and give the skin the well-groomed look. Shea butter and vitamin E restore the hydrolipid balance, nourish and protect the skin from free radicals. Low molecular weight hyaluronic acid, D-panthenol and allantoin moisturize and strengthen skin turgor, stimulate the renewal of surface layers and the formation of new supporting structures of the skin. Suitable as a basis for makeup. Has no comedogenic effect.

Application: apply the small amount of cream on clean skin, including the area around the eyes, evenly distribute in circular massage movements along the cosmetic lines, wait for complete absorption. Apply as needed. Suitable for daily use.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Aqua, Ethylhexyl Methoxycinnamate, Cetearyl Olivat (and) Sorbitan Olivat, Glycerin, Propylene Glycol, Benzophenone, Cetylstearyl Alcohol, Shea Butter, Sodium Hyaluronate, Allantoin, D-Panthenol, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Magnesium Aluminum Silicate, Tocopheryl Acetate, Silica, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, Perfume.

Not a medicinal product.

CREAM FOR PROBLEM SKIN pH 5,5

The cream is used for acne and other skin rashes. Has the softening and soothing effect, perfectly tightens pores. Has anti-inflammatory, antibacterial and healing properties, relieves inflammation and redness. Zinc oxide has antimicrobial action and protects from sunlight. D-panthenol (provitamin B5) and the complex of vitamins A, E, F have the nourishing and restorative effect. Chamomile extract stabilizes the moisture and oiliness of the skin, accelerates the process of cell regeneration and saturates them with vitamins. Licorice extract has bactericidal and antifungal functions.

Application: apply the cream in the morning and evening on clean and dry skin.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Water, Cyclopentasiloxane, Propylene Glycol, Zinc oxide, Metronidazole, Chlorhexidine Digluconate, Cetearyl Alcohol, Stearic Acid, Glycerin, Ceteareth-20, Dimethicone, Cetearyl Olivat, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Sodium Hydrochloride, Butylated Hydroxy Anisole, Retinyl Palmitate, Tocopherol, Linoleic Acid, Lactic Acid, Allantoin, D-Panthenol, Aloe Vera Leaf Extract, Licorice Extract, Chamomilla Recutita Extract Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben (and) Butylparaben (and) Isobutylparaben, Parfum.

Not a medicinal product.

DAY CREAM-GEL FOR THE FACE ULTRALIGHT pH 5,5 SPF - 15

Ultralight day cream-gel for face moisturizes and soothes the skin, protects from the negative effects of the environment. The phytocomplex of the product has the tonic, antiseptic and anti-inflammatory effect on the skin. Vitamins that are part of the cream, protect and soften the skin, eliminate dryness, have the antioxidant effect. Can be used as the foundation for makeup.

Application: apply with light massage movements on cleansed skin.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Aqua, Ethylhexyl Methoxycinnamate, Cetearyl Olivat, Sorbitan Olivat, Isopropyl myristat, Glycerin, Propylene Glycol, Benzophenone-3, Ceto Stearyl Alcohol, Carbomer 940, Hypericum Perforatum Extract, Bidens tripartita Extract, Thymus Serpyllum Leaf Extract, Rhodiola Rosea Root Extract, Bisabolol, Aloe Barbadensis Leaf Juice, Retinyl Palmitate (Vitamin A), Tocopheryl Acetate (Vitamin E), Linolic/Linolenic Acid (Vitamin F), Panthenol, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, Triethanolamine.

Not a medicinal product.

**NIGHT CREAM-GEL FOR THE FACE
ULTRALIGHT pH 5,5**

Ultralight night cream-gel for the face effectively restores and nourishes the skin after the negative effects of the environment during the day. Sea buckthorn, macadamia, almond and flax oils eliminate inflammation, remove flaking, tone and saturate the skin with vitamins. The complex of extracts gently soothes the skin, has anti-inflammatory, moisturizing and antiseptic effects.

Application: apply with light massage movements on cleansed skin.

Warning: do not use in case of hypersensitivity to certain components of the composition.

Pharmaceutical form: 50 ml.

Ingredients: Aqua, Cetearyl Olivatе, Sorbitan Olivatе, Isopropyl Myristat, Sorbitan Oleate, Glycerin, Propylene Glycol, Macadamia Ternifolia Seed oil, Prunus Amygdalus Dulcis Seed Oil, Ceto Stearyl Alcohol, Carbomer 940, Linum Usitatissimum Seed Oil, Hippophae Rhamnoides Seed Oil, Laminaria Digitata Extract, Bidens Tripartita Extract, Rosa Canina Extract, Salvia Officinalis (Sage) Extract, Bisabolol, Aloe Barbadensis Leaf Juice, Panthenol, Perfume, Phenoxyethanol (and) Methylparaben (and) Ethylparaben (and) Propylparaben, Triethanolamine, Butylated Hydroxy Anisole.

Not a medicinal product.

MESO SERIES FOR ANTI-AGE CARE

COSMETIC CREAM «MESO COCKTAIL FOR EYELIDS» pH 5,5

Cosmetic cream «Meso cocktail for eyelids» with a delicate texture for the care of mature skin of the eyelids, prone to puffiness and the appearance of dark circles.

Plumps the thin skin around the eyes, reduces eye bags and dark circles under the eyes, strengthens skin vessels and smoothes expression lines.

APPLICATION: apply a small amount of the cream on clean skin of the eyelids, evenly distribute the cream with light movements along the cosmetic lines - on the lower from the outer corner of the eye to the inner, on the upper from the inner corner of the eye to the outer, wait until it is completely absorbed. Apply 2 times a day in the morning and evening (no later than 2 hours before bedtime). Taking into account the cumulative effect of peptides, noticeable results appear after 2-4 weeks of regular use of the cream. To achieve the maximum effect, it is recommended to use the cream in combination with lymphatic drainage facial massage.

WARNING: avoid contact with eyes, in case of contact, rinse with water. Do not use in case of hypersensitivity to certain components of the composition.

PHARMACEUTICAL FORM: 15 ml.

INGREDIENTS: Agua, Glycerin, Grape Seed (Vitis Vinifera) Oil, Cyclopentasiloxane, Butyrospermum Parkii (Shea) Butter, Propylene glycol, Dimethicone, Stearic Acid, Isopropyl Myristate, Cetearyl Olivat (and) Sorbitan Olivat, Cetylstearyl Alcohol, Acetytetrapeptide-5, Oleic Acid (and) Linoleic Acid (and) α -Linolenic Acid (and) Palmitic Acid (and) Eicosenoic Acid (and) Erucic Acid (and) Stearic Acid (and) Palmitoleic Acid (and) γ -Linolenic Acid, Rutin, Horse Chestnut Extract, Bidens Tripartita Extract, Equisetum Arvense Extract, Centaurea Cyanus Extract, Guarana Extract, Glycyrrhiza Glabra Root Extract, Methylpyrrolidone, Perfume, Carbopol, Triethanolamine, Vitamin Complex AEF, Phenonip, Butylhydroxyanisole.

Not a medicinal product.

Acetyl tetrapeptide, Low Molecular weight Hyaluronic Acid, Panthenol and a Vitamin Complex AEF	Stimulates the formation of collagen and fibers of the intercellular matrix of the thin skin of the eyelids, increasing its density and elasticity
Rutin and Horse Chestnut Extract	Reduce the permeability of the vascular wall and strengthen it, prevent stagnation and swelling under the eyes
Unique Complex of Omega 3,6,9 Fatty Acids, Grape Seed Oil and Shea Butter	Nourish, restore and replenish the lipid layer of the skin
Bur Marigold, Horsetail, Cornflower, Guarana	Improves blood circulation, tones and prevents edema
Licorice Root Extract	Adds a whitening effect

«MESO SERUM FOR FACE» EXPRESS - LIFTING pH 5,0

«Meso serum for face» express lifting provides an evening of the skin relief, fills in and smoothes wrinkles.

Active natural ingredients based on natural biopolymers and polysaccharides - Senegalese acacia gum, Rhizobian gum and high molecular weight hyaluronic acid, when applied to the skin surface, form a polymer film, form a structural network. When completely dry, the biopolymer film smoothes wrinkles, provides hydration and creates a firming anti-aging effect, evens out the skin's relief and reduces the depth of wrinkles.

APPLICATION: apply a small amount of serum on clean skin, including the area around the eyes, evenly distribute in circular massage movements along the cosmetic lines, wait for complete drying*.

In case of a strong feeling of tightness, apply the serum after applying the cream according to the skin type, after it is completely absorbed, or after removing its residues. Apply as needed. Suitable for daily use.

*Information from the manufacturer of the active ingredients: the effect appears 15 minutes after application and becomes maximum after 1:00. 96% of the participants in the experiment actually felt the tightening effect.

WARNING: do not use in case of hypersensitivity to the components of the composition.

PHARMACEUTICAL FORM: 30 ml.

INGREDIENTS: Agua, Acacia Senegal Gum (and) Hydrolyzed Rhizobian Gum, Propylene Glycol, Glycerin, Sodium Hyaluronate, Glycine Soja (Soybean) Protein, Carbopol, Green Coffee Extract, Mentha Piperita Extract, D-Panthenol, Vitamin Complex AEF, Perfume, Phenonip.

Not a medicinal product.

Complex of Hydrolyzed Proteins	Has a moisturizing, nourishing and regenerating effect, promotes cell regeneration
D-Panthenol (Provitamin B5) and a Vitamin Complex AEF	Stimulate the formation of collagen and elastane, strengthen the skin and make it more elastic
Extracts of Green Coffee and Peppermint	Tones and strengthens the turgor of flabby skin

COSMETIC CREAM «MESO COCKTAIL FOR FACE» pH 5,5

Cosmetic cream «Meso cocktail for face» is created on the basis of lamellar emulsion for care and remodeling of mature skin. With regular use, the cream gives a radiant and healthy appearance to the skin of the face, accelerates the synthesis of biologically active molecules involved in the creation of new support structures and in the adhesion of skin layers.

The active composition with low molecular weight hyaluronic acid and a complex of 2 tetrapeptides, consisting of 8 amino acid residues, activates the production of collagen by fibroblasts and improves the quality of the intercellular matrix. Stimulates the formation of collagen and fibers, strengthens the skin, increasing its density and elasticity. Acetyl Tetrapeptide-11 is a remodeling peptide with the ability to trigger cell renewal in a physiological way and mimics the natural mechanism of regulation of the processes of decay and synthesis of its components. Acetyl Tetrapeptide 9 stimulates the production of proteoglycans that «bind» collagen fibrils into a bundle.

APPLICATION: apply a small amount of cream on clean skin, evenly distribute the cream in circular massage movements, wait for complete absorption. Apply 2 times a day in the morning and evening. The cumulative effect from the use of peptides and the expected result appears after 2-4 weeks of regular use. To achieve the maximum effect, it is recommended to use the cream in combination with lymphatic facial massage.

WARNING: do not use in case of hypersensitivity to certain components of the composition.

PHARMACEUTICAL FORM: 50 ml.

INGREDIENTS: Agua, Argania Spinosa Oil, Glycerin, Cetearyl Olivat, Sorbitan Olivat, Coconut (Cocos Nucifera) Oil Virgin, Propylene Glycol, Cyclopentasiloxane, Dimethicone, Isopropyl Myristate, Stearic Acid, Cetylstearyl Alcohol, Mannitol (and) Acetyl Tetrapeptide-11 (and) Acetyl Tetrapeptide-9, Oleic Acid (and) Linoleic Acid (and) α -Linolenic Acid (and) Palmitinic Acid (and) Eicosenoic Acid (and) Erucic Acid (and) Stearic Acid (and) Palmitooleic Acid (and) γ - Linolenic Acid, Sodium Hyaluronate, Green Coffee Extract, Horse Chestnut Extract, Vitis Vinifera Seed Extract, Carbopol, D-Panthenol, Triethanolamine, Perfume, Vitamin Complex AEF, Phenonip, Butylhydroxyanisole.

Not a medicinal product.

Complex with Omega 3,6,9 Fatty Acids, Argan and Coconut Oil	Restores the hydrolipid barrier of the skin
Panthenol, a Vitamin Complex AEF and Extracts: Green Coffee, Horse Chestnut, Grape Seed	Tones and strengthens the turgor of the skin

ALGINATE MASKS

PEEL OFF REJUVENATING FACE MASK WITH "GOLD" ARGANIA OIL

This perfect mask with translucent texture has powerful rejuvenating effect. Argania oil has restorative and regenerative effect, as about 80% of its formula contains polyunsaturated fatty acids. The mask restores skin lipid barrier, smoothes shallow wrinkles and prevents emergence of new ones.

APPLICATION: the mask shall be prepared immediately before the procedure. To prepare the mask, mix 12-15 g (3/4 spoon) of powder and 45 ml of water with a temperature of 20°C. After mixing powder with water with a temperature of 20°C, stir the mixture well for two minutes, or, in case of mixing powder with water with a temperature of 40°C, stir the mixture during the first minute. Then apply the mask along the face massage lines upwards. The recommended time of treatment is 20 minutes. After the procedure, the mask, previously detached from skin edges, shall be removed from face upward. The mask residues shall be washed off with water or wiped with tonic.

WARNING: do not use in case of hypersensitivity to separate components of the composition.

INGREDIENTS: alginate, marine complex, Argania oil.

Not a medicinal product.

COLOR: golden-orange.

PHARMACEUTICAL FORM: sachet 25 g, plastic jar 250 g + measuring spoon.

FOR OILY AND ACNE SKIN MASK

This mask is developed for oily and problem skin with acne. Its components normalize functioning of sebaceous glands and have anti-inflammatory effect. The mask helps to restore the natural skin balance and reduce inflammation.

APPLICATION: for face treatment, mix 25 g (1 spoon +1/2 spoon) of powder and 75 ml of water with a temperature of 20°C. Stir the mixture during the first minute. In 5-6 minutes, the mask shall form a dense, elastic film. The mixture shall be applied in a thick layer. Within 6 minutes, the mask shall become plasticized. After 15-20 minutes, the mask, previously detached from skin edges, shall be removed upwards in one piece. The mask residues shall be washed off with water or wiped with tonic.

WARNING: do not use in case of hypersensitivity to separate components of the composition.

INGREDIENTS: alginate, diatomaceous earth, ash buds, calcium sulfate.

Not a medicinal product.

COLOR: light blue.

PHARMACEUTICAL FORM: sachet 25 g, plastic jar 250 g + measuring spoon.

EYE CONTOUR AND LIP MASK WITH SILK PROTEINS

The mask components create a gentle protective film. Skin is hydrated due to high content of hyaluronic acid. The small wrinkles are eliminated due to marine collagen. Rose essential oil has incredible anti-aging effect.

APPLICATION: mix 8-10 grams of powder and 30 ml of water with a temperature of 20 °C. Stir the mixture during the first minute. In 5-6 minutes, the mask shall form a dense, elastic film. The mixture shall be applied in a thick layer. Within 6 minutes, the mask shall become plasticized. After 15-20 minutes, the mask, previously detached from skin edges, shall be removed upwards in one piece. The mask residues shall be washed off with water or wiped with tonic.

INGREDIENTS: alginate, rice protein, hyaluronic acid, marine collagen, rose essential oil, silk proteins.

Not a medicinal product.

COLOR: turquoise.

PHARMACEUTICAL FORM: sachet 25 g.

Not a medicinal product.

COLOR: purple.

PHARMACEUTICAL FORM: sachet 25 g.

CRANBERRY PEEL OFF MASK «ANTI AGE REVITALISANT»

The mask has anti-inflammatory, anti-age and protective effect. It enriches derma with vitamins and trace elements, restores, moisturizes and tones it. Cranberries prevent emergence of pigmentation, soften and tone skin and strengthen blood vessels. Diatomaceous earth improves skin tone, activates microcirculation and nourishes skin with trace elements. Marine complex, contained in the formula, improves respiratory function of skin, eliminates toxins and normalizes metabolism. The mask has lifting effect.

APPLICATION: mix 25 g of powder with 70-90 ml of water (with a room temperature, which is about 20°C) until smooth (the mask shall have the consistency of thick cream). Apply the mask in a thick layer of 3-5 mm on the entire face, including lips and eyelids. In 5 minutes, the mask shall form a thick elastic film. The mask, previously detached from skin edges, is recommended to take off the face after 25-30 minutes of exposure in one piece upwards.

INGREDIENTS: alginate, micronized cranberries, diatomaceous earth, marine complex.

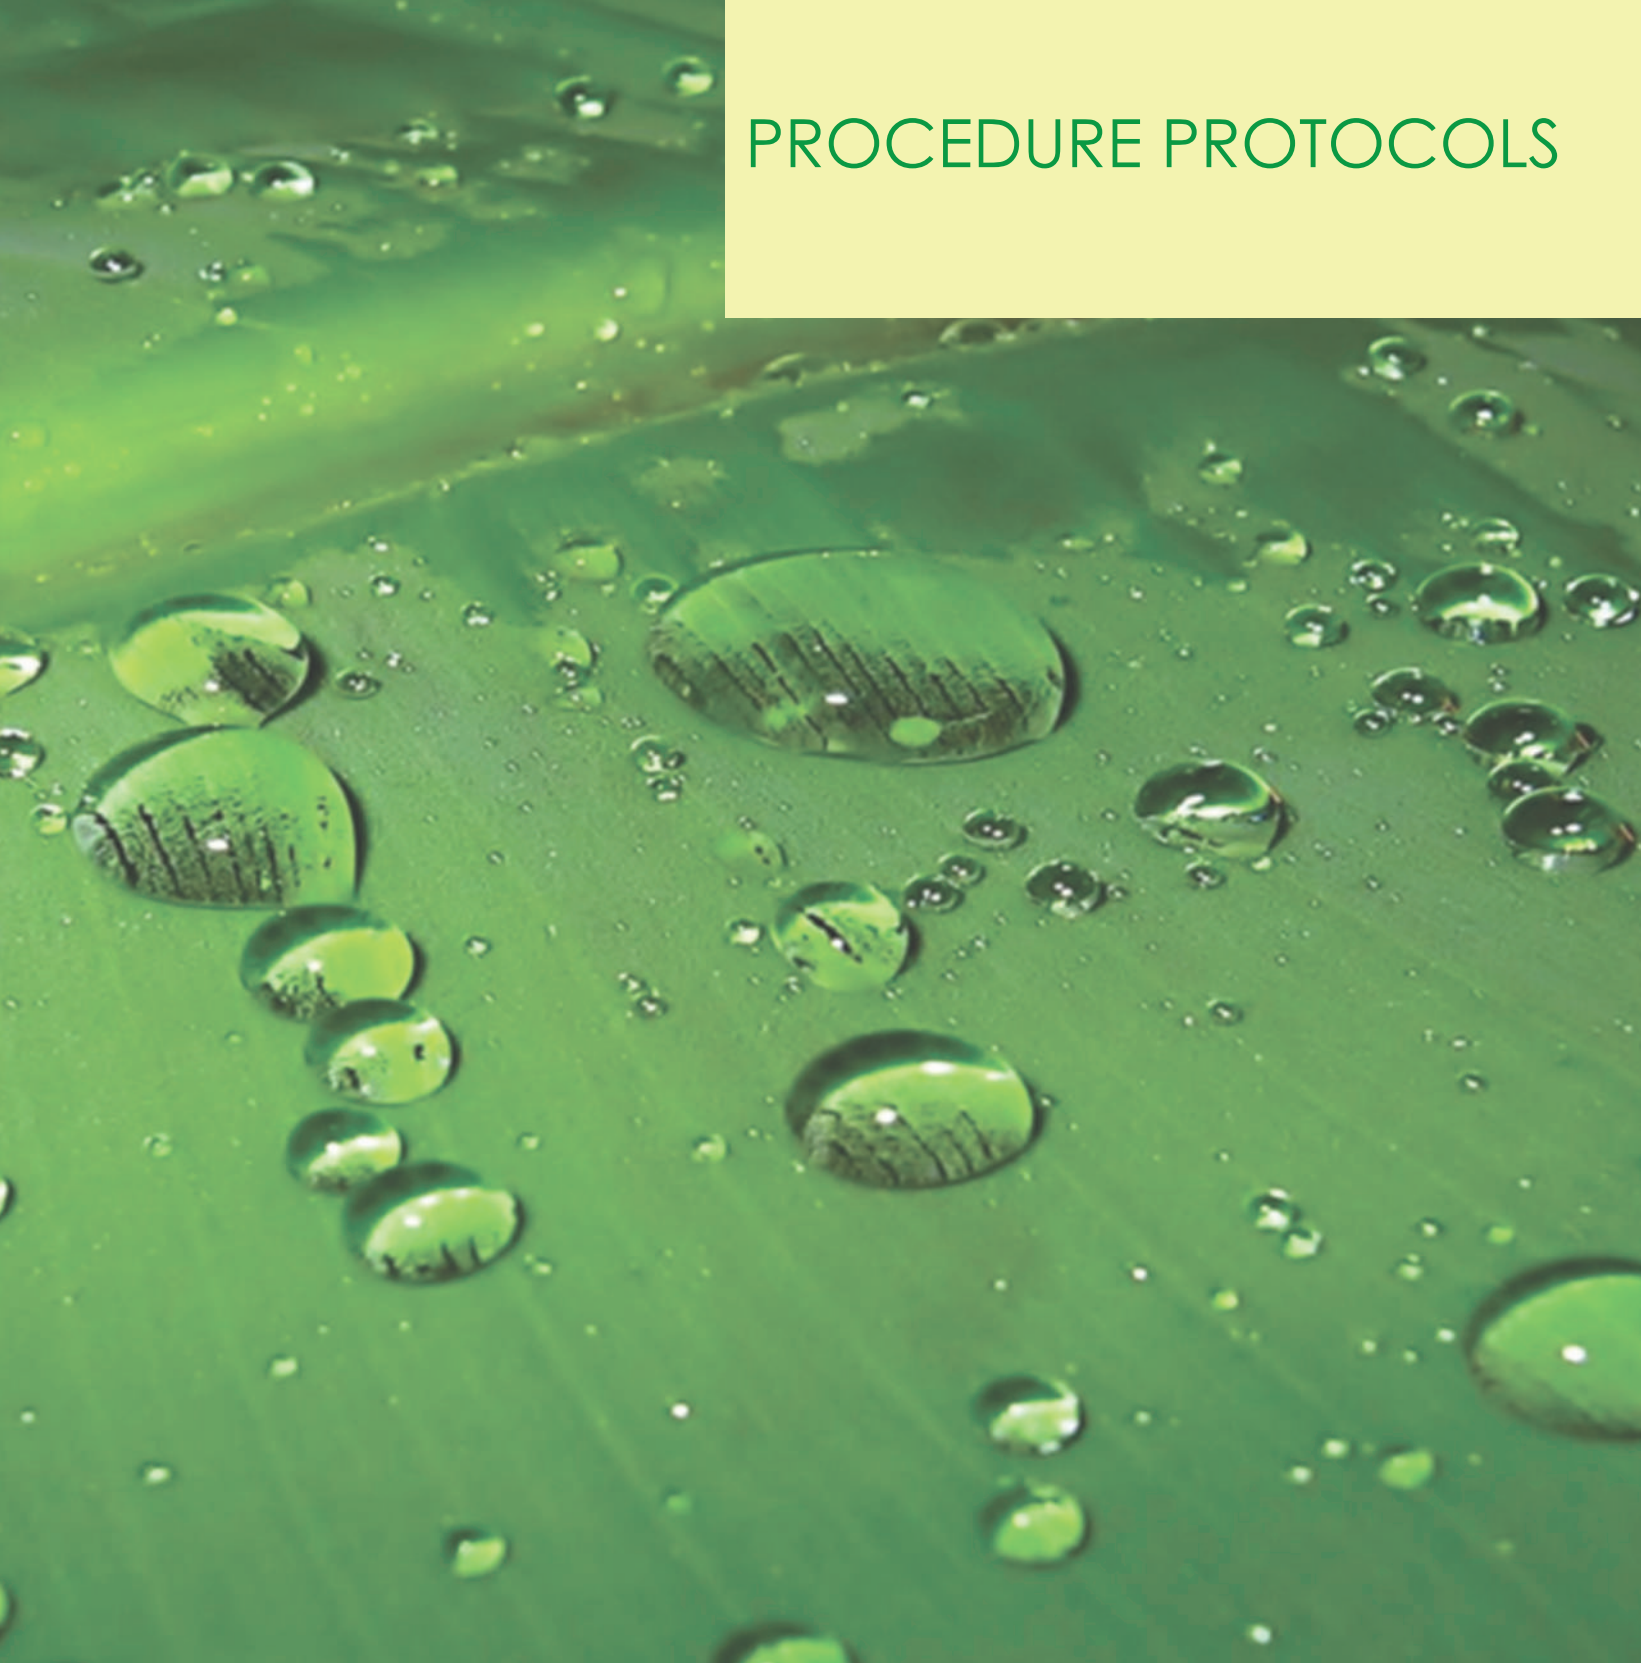

Not a medicinal product.

COLOR: pink.

PHARMACEUTICAL FORM: sachet 25 g.

PROCEDURE PROTOCOLS

ATRAUMATIC FACE CLEANSING. COLD HYDROGENATION METHOD

DURATION: 1-1.5 hours.

SKIN TYPE: designated for all skin types (conduct carefully for skin with couperosis).

Name	Consumption, ml	Description
Cleansing milk	2	Remove makeup
Cleansing exfoliating gel	2	Perform cleansing along massage lines for 2-3 minutes, rinse with warm water
Cleansing gel	2	Make foam gently, rinse with warm water
Desincrustation gel for pores opening	2	• Keep under film for 15-20 min, remove film and perform ultrasonic cleansing. Rinse the gel residues with warm water • Apply the gel and work with negative galvanic current for 5-7 minutes, then apply ultrasonic exfoliant
Beauty Tonic Antisept	2	Spray the tonic on face profusely; sop up the residues with a tissue. Use instead of chlorhexidine or hydrogen peroxide
Mask for pores closure	15	Apply the mask for 15-20 minutes, rinse with warm water
Tonic	2	Wipe face
Epitelisant® cream	1,5	Apply with gentle movements

MECHANICAL FACE CLEANSING

DURATION: 1.5-2 hours.

SKIN TYPE: skin with open and closed comedones or acne; oily, porous, combination skin, normal skin with local elements, hyperkeratosis.

Name	Consumption, ml	Description
Cleansing milk	2	Remove makeup
Cleansing exfoliating gel	2	Perform cleansing along massage lines for 2-3 minutes, rinse with warm water
Cleansing gel	2	Make foam gently, rinse with warm water
Desincrustation gel for pores opening	2	Keep under film for 15-30 min, remove film and perform mechanical cleansing
Beauty Tonic Antisept	2	Spray the tonic on face profusely; sop up the residues with a tissue. Use instead of chlorhexidine or hydrogen peroxide
Comedones and acne controlling phyto gel	1,5	Apply phyto gel; allow absorbing. Do not rinse
Mask for pores closure	15	Apply the mask for 15-20 minutes, rinse with warm water
Tonic	2	Wipe face
Epitelisant® cream	1-1,5	Apply with gentle movements

SKIN BRIGHTENING PROCEDURE WITH VITAMIN C

DURATION: 1-1.5 hours. The procedure shall be conducted in 5-7 sessions once a week or as specified by a beautician.

SKIN TYPE: skin with pigmentation.

Name	Consumption, ml	Description
Cleansing milk	2	Remove makeup
Cleansing exfoliating gel	2	Perform cleansing along massage lines for 2-3 minutes, rinse with warm water
Cleansing gel	2	Make foam gently, rinse with warm water
Peeling mask with fruit acids	10	Apply evenly on face, neck and decollate skin (film may also be used), avoiding applying on eye area, keep for 5-20 minutes, rinse with warm water
Vitamin C serum	1	Apply and allow absorbing
Whitening phyto gel	1,5	Apply phyto gel; allow absorbing. Ultrasonic phonophoresis may be used*
Mask for pores closure/correspondent alginate mask	15/25	Apply the mask for 20-30 minutes, keep wet, rinse with water/apply alginate mask
Tonic	2	Wipe face
Regenerating fluid	1-1,5	Apply with gentle movements, allow absorbing
Bioprotector® cream	1-1,5	Apply with gentle movements allow absorbing

*In case of introduction of phyto gel using phonophoresis, the Vitamin C serum shall be applied AFTER using Tonic, as ultrasonic waves destroy

ANTI-AGE LIFTING PROCEDURE

DURATION: 1-1.5 hours. The procedure shall be conducted in 5-7 sessions once a week.

SKIN TYPE: suitable for all skin types, especially with signs of gravitational ptosis.

Name	Consumption, ml	Description
Cleansing milk	2	Remove makeup
Cleansing exfoliating gel	2	Perform cleansing along massage lines for 2-3 minutes, rinse with warm water
Cleansing gel	2	Make foam gently, rinse with warm water
Peeling mask with fruit acids/Desincrustation gel for pores opening	15	Apply evenly on face, neck and decollate skin (film may also be used), avoiding applying on eye area, keep for 5-20 minutes, rinse with warm water
Massage serum/Massage cream	2-5	Apply and perform lifting massage, rinse with warm water
Lifting serum/Multivitamin serum	1	Apply and allow absorbing
Cosmetic cream «Meso cocktail for eyelids»	up to 0,5	apply a small amount on skin of the eyelids and allow absorbing
Vitamin mask/correspondent alginate mask	5/25	Apply the mask on face, neck and decollate in even layer for 20-30 minutes. Rinse with warm water/apply alginate mask
Regenerating fluid/ Cosmetic cream «Meso cocktail for face»	1-1,5	Apply with gentle movements
Bioprotector® cream	1-1,5	Apply with gentle movements

ANTICOUPEROSE CARE

DURATION: 1-1.5 hours. The procedure shall be conducted in 5-7 sessions once a week or as specified by a beautician.

SKIN TYPE: skin with couperosis, initial stage of rosacea, dry sensitive skin.

Name	Consumption, ml	Description
Cleansing milk	2	Remove makeup
Cleansing gel	2	Make foam gently, rinse with warm water
Peeling mask with fruit acids/Desincrustation gel for pores opening	15	Apply evenly on face, neck and decollate skin (film may also be used), avoiding applying on eye area, keep for 5-20 minutes, rinse with warm water
Vitamin C serum	1	Apply and allow absorbing
Anticouperose phytogel	1,5	Apply and allow absorbing, microcurrents may be used
Mask for pores closure	15	Apply and allow absorbing, microcurrents may be used
Tonic	2	Wipe face
Regenerating fluid	1-1,5	Apply with gentle movements, allow absorbing
Bioprotector® cream	1-1,5	Apply with gentle movements

ANTI-CELLULITE PROCEDURE

DURATION: 30-60 minutes. The procedure shall be conducted in no less than 10 sessions twice a week.

SKIN TYPE: designated for control of initial cellulite stage and body size.

Name	Consumption, ml	Description
Anticellulite phytogel	20	Apply phytogel on so-called "shorts area" and wrap it with film. Duration of exposure shall be increased for every next procedure. Increased sweating and detoxification can be observed after the third procedure. After film removal sop up the moisture residues with paper towels. The phytogel effect may be enhanced by using thermal blankets.

OPTIMUM MOISTURIZING PROCEDURE

DURATION: 1-1.5 hours. The procedure shall be conducted in 5-7 sessions once a week or as specified by a beautician.

SKIN TYPE: designated for all skin types.

Name	Consumption, ml	Description
Cleansing milk	2	Remove makeup
Cleansing exfoliating gel	2	Perform cleansing along massage lines for 2-3 minutes, rinse with warm water
Cleansing gel	2	Make foam gently, rinse with warm water
Peeling mask with fruit acids/Desincrustation gel for pores opening	15	Apply evenly on face, neck and decollete skin (film may also be used), avoiding applying on eye area, keep for 5-20 minutes, rinse with warm water
Moisturizing mask/correspondent alginate mask	15	Apply the mask for 20-30 minutes, keep wet, rinse with water/apply alginate mask
Serum with hyaluronic acid	1	Apply and allow absorbing
Eye contour area Bioprotector® serum	up to 0,5	Apply and allow absorbing
Tonic	2	Wipe face
Regenerating fluid/moisturizing face cream with seaweed	1,5	Apply with gentle movements

EXPRESS PROCEDURE

Name	Consumption, ml	Description
Cleansing milk	2	remove makeup
Cleansing gel	2	gently foam and rinse with warm water
Peeling mask with fruit acids	15	apply an even layer on the skin of the face, neck and décolleté, excluding the area around the eyes, leave for 5 - 20 minutes (depending on the skin reaction), rinse with warm water
Vitamin/moisturizing mask	5	apply evenly, leave for 15-20 minutes, rinse with warm water
«Bioprotector®» Cream	1,5	apply with light movements
