

TRADING PROPOSAL

"TERNOPIL MEAT FACTORY" is a successful symbiosis of traditional recipes and the latest technologies.

Thanks to the closed cycle of production from the field to our own network of stores, we control the quality of products at every stage, which allows us to be sure of the quality and success of products.

Production facilities with an area of: about 15,000 square meters. m., allow to produce 1,500 tons of products every month, in particular:

- Sausage products (boiled, boiled-smoked, semi-smoked, raw-smoked, delicacies);
- Preservation (meat, meat-vegetable, vegetable, meat pates);
- Chilled and frozen semi-finished products.

MEAT ADDITIVES TO *pizza*

BALIK
